Boston March. 16. 1742.

The following Report of the Committee appointed the Nineteenth of May last, to draw up and Set forth to the General Court the distressing Circumstances of the Town and to Pray for Relief as to their proportion of the Province Tax, was Ordered to be here Recorded by Vote of the Town of this Day, Vizt.

To the Honourable Thomas Cushing Esq<sup>r</sup>. and other the Representatives of the Town of Boston.

Gentlemen,

As the Town of Boston has Chosen us a Committee to Represent to You the Distressed State thereof at [524.] This Day in Order to be laid before the General Court for their Consideration and to Obtain a very large Abatement in the Apportioning of their Share in the Province Tax for the future, so to Shorten the Representation We take leave to refer you to the Memorial laid before the General Court Anno Domini, 1735. and shall only Observe upon the Material Difference between the State of the Town at that time Compared with this Day.

Our Trade in general at this Day (by the best Light which can be had) is not above One half that it was in 1735. and so much upon the Decline that there is great danger of its being reduced to the greatest Extremity and Consequently renders the Town unable to Pay such a very large Proportion of the Province Tax as they have Usually stood Charged with in time past.

Our Distilling which at that Day was much upon the Decline is much more reduced at this Occasioned by the great Demand for Rum at Jamaica to Supply the Fleet which has Encouraged the Inhabitants of that Island to Distill most of their Molasses into Rum which otherwise would have been brought hitler as usual to be Manufactured, Also the great Demand for Rum in Ireland and other places in Europe has Encouraged the Distilling in Our Windward Islands That We have little Molasses from thence so that the Quantity of Molasses Distilled at this Day does not Amount to above Two thirds of what there was in 1735. So that We Suffer exceedingly in that Branch of Trade Compared with time past.

Our Cod Fishery, the difference between that Article as Complained of in 1735. and this Day Stands thus that altho' Our Encouragement was very small at that Day Yet Our Navigation and Trade was kept up by Sending the Fish abroad in Our own Vessells, and Paying for Fish in the Course of Our own Trade which We are now almost entirely Stript of and both Fish and Supply is Confined to the Fishing Towns who generally Send it abroad in their own Vessells Especially Marblehead Salem and Plymouth which has rendered them much Abler and Us much less to Support Our Usual proportion of the Province Tax.

Our Trade to the West Indies, Compared with 1735. has grown so much Worse as at this Day as to be almost reduced to Nothing and Our Discouragement so great as that We [525.] Are Obliged to lay up Our Vessells not knowing where to Employ them to the least Advantage.

Our Trade to London the Variation between 1735. & this time is exceedingly Altered for the worse, as a Town it was then Al-

lowed that the greatest Advantage this Town reaped from that Trade was by Ship Building which Employed most of Our Tradesmen, But that is now reduced so that whereas in 1735. Orders might arrive for Building Forty Sail of Ships, there has been as yet but Orders for Two, by which means this most Advantageous Branch of Trade to Our Mother Countrey being lessened to so great a degree must Necessarily Oblige a great many of Our Useful Tradesmen to leave the Town as many have already done, so that this Town will Suffer exceedingly for want of that Branch of Trade being properly Supported and thereby rendered much less Able to Support a large Tax, than from the decline of all the other Branches of Trade together by reason that Branch Employed more Men than all the rest.

The Charges of the Town are exceedingly increased upon Us, We shall Add no more than to Shew the Difference of Charge from 1735. to this time, The Charge 1735. for the Poor was £2069 — 1736 to 1740. above £3300 — Annually — 1740. the Charge was £4800. and this Year its Apprehended £5000 — will but barely Support the Charge.

The whole Town Rate Stands thus for the last Years. 1738. £8600. — 1739. £8600. — 1740. £8600. 1741. £11000. — 1742. £11000.

The Decrease of Polls Stands thus.

1738 Polls Rated	3395.
1739 . . .	3231.
1740 . . .	3043.
1741 . . .	2972.

So that in Four Years the Decrease of Polls is 423. almost One Eighth part of the Number of Rated Inhabitants And therefore Nothing can be a greater proof of the Towns inability to Pay so large a proportion of the Province Tax as in times past that Our Rateable Polls are Yearly decreased and like to be more so, Our Trade very much decayed and Our Poor & Town Charge exceedingly increased when at the same time it cannot be denied But that the Province as such is much increased [526.] Settlements of New Towns made & other Towns daily filled with Inhabitants and much improved and great part of Our Useful Trade gone to other Towns which upon the whole renders them much Able to bear a larger and this Town a much smaller Tax than in time past.

Again the Excessive high price of Provisions for Two Years past has exceedingly Impoverished this Town whilst the Countrey Towns in general have raised their own Provisions and been free from such a Calamity which in the Winter Season, 1740. very much distressed Our Inhabitants & had it not been for the extended Charity of Able & well disposed Persons amongst Us a great many must have Suffered exceedingly & some did Notwithstanding all the Care to prevent it; All which has reduced this Town & increased the Countrey by Our paying a most Extravagant price to them for Wood and Provisions which We were Obligated to Buy of the Neighbouring Towns, by reason the Winter Set in early, Closed the Harbour with Ice, and Shut out Our Wood and Provisions which We were wont to be Supplied with at Easy Rates.

In the Town Moreover there is a great many Polls which are not Rated and are Supported by Charity not included in the Charge of the Towns Poor.

The Support of the Ministry is increased £4000 a Year since 1735. for whereas it was but £8000, then, its now £12000.

Upon the whole its Apprehended this Town ought not at this Day to Stand Charged with more than One Tenth or at most One Eighth part of the Province Tax.

We are

Gentlemen,

Your most Obedient humble Servants.

[527.] The Oration Pronounced by Mr. John Lovell at the Opening of the Meeting, on Occasion of the Death of Peter Fanueil Esq<sup>r</sup>. is here Recorded by Order of the Town, and is in the Words following, Vizt.

I Stand in this place, my Fellow Townsmen, and my worthy Patrons, at the Call of those to whom you have committed the Direction of your Publick Affairs, to condole with you for the Loss of your late generous Benefactor, The Founder of this House. Certain I am, there are Numbers in this great Assembly, who could upon this Occasion have done more Justice to his Memory, and and have better Discharged the Office that is enjoin'd me. But the Commands of those (for such I must always esteem their Desires) who have devolved this Charge upon me, and the Veneration I have for the Vertues of the Deceas'd, oblige me to bear what little Part I can, in a grateful Acknowledgement of the just Regard due to the Memory of a Man, whose Name, I'm sure will never be forgotten among us.

How soon, alas! is our Joy for having found such a Benefactor, chang'd into Mourning for the Loss of him! But a few Months are pass'd, since we were framing Votes, and consulting the best Measures to express our Gratitude for his unexampled Favours; and this first Annual Meeting within these Walls that were rais'd by his Bounty, finds us Assembled in the deepest Sorrow for his Decease.

Instances of Mortality are never more affecting than in those whose Lives have been Publick Blessings. Surely then every Breast must feel a more than common Distress, for the Loss of One, whose Largeness of Heart equal'd, great as it was, his Power to do Good. Honest Industry must mourn, for which the Exercise of his Bounty found an almost constant Employment: And they that know how to Pity the Calamities of human Nature themselves, will mourn for him that always reliev'd them.

[528.] So soon as he arriv'd to the Possession of his large and plentiful Estate: instead of fruitlessly hoarding up his Treasures, tho' no Man managed his Affairs with greater Prudence and Industry; instead of wasting them in Luxury, tho' Plenty always crown'd his Board; instead of Neglecting the Wants of his Fellow-

Creatures, an unhappy Circumstance too often attending the Possession of Riches, he made it manifest that he understood the true Improvement of Wealth, and was determin'd to pursue it. It was to him the highest Enjoyment of Riches, to relieve the Wants of the Needy, from which he was himself exempted, to see Mankind rejoicing in the Fruits of his Bounty, and to feel that divine Satisfaction which results from Communicating Happiness to others. His Acts of Charity were so Secret and unbounded, that none but they who were the Objects of it can Compute the Sums which he annually Distributed among them. His Alms flow'd like a fruitful River, that diffuses it's Streams thro' a whole Country. He fed the Hungry, and he Cloath'd the Naked, he comforted the Fatherless, and the Widows in their Affliction, and his Bounties visited the Prisoner. So that Almighty God in giving Riches to this Man, seems to have Scattered Blessings all abroad among the People.

But these private Charities were not the only Effects of his Publick Spirit, which, not contented with Distributing his Benefactions to private Families, extended them to this whole Community. Let this Stately Edifice which bears his Name Witness for him, what Sums he expended in Publick Munificence, This Building Erected by him at an immense Charge, for the Convenience and Ornament of the Town, is incomparably the greatest Benefaction ever yet known to Our Western Shoar. Yet this Effect of his Bounty, however great is but the first Fruits of his Generosity a Pledge of what his Heart, always devising liberal Things, would have done for us, had his Life been Spar'd. It is an unspeakable Loss to the Town, that he was taken away in the midst of his Days, and in so Sudden a manner, as to prevent his making Provision for what his generous Heart might [529.] Design. For I am well Assur'd from those who were Acquainted with his Purposes, that he had many more Blessings in Store for us, had Heaven prolong'd his Days.

But he is gone! The Town's Benefactor, the Comforter of the Distress'd, and the poor Man's Friend.

He is gone! And all his Plans of future Bounties with him, they are Buried in the Grave together. He shall be rais'd to Life again: And his intended Charities, tho' they are lost to us, will not be lost to him. Designs of Goodness and Mercy, prevented as these were, will meet with the Reward of Actions.

He is gone! . . . And must such Men Die! Die in the midst of their Days! Must the Protectors and Fathers of the Distress'd be taken away, while their Oppressors are continued, and increase in Power! . . . Great God! How Unsearchable are thy Ways! . . . We Confess Our Sins, but just and righteous art Thou.

To express your Gratitude to your generous Benefactor, you have pass'd the most honourable Resolves, and to preserve his Memory, you have call'd this House by his Name. But in vain, alas, would you perpetuate his Memory by such frail Materials! These Walls, the present Monuments of his Fame, shall Moulder into Dust: These Foundations, however deeply laid, shall be forgotten. But his Deeds, his Charities, shall survive the Ruins of

Nature. And to have reliev'd the Miseries of the Distress'd, to have still'd the Cries of Orphans, and to have dry'd the Widow's Tears, are Acts that shall embalm his Memory for many Generations on Earth, and shall follow him beyond the Limits of Mortality, into those blissful Regions where endless Charity dwells.

What now remains, but my ardent Wishes (in which I know you will all concur with me) That this Hall may be ever Sacred to the Interests of Truth, of Justice, of Loyalty, of Honour, of Liberty. May no private Views nor party Broils ever enter within these Walls; but may the same publick Spirit that glow'd in the Breast of the generous Founder, influence all your Debates, that Society may reap the Benefit of them.

[530.] May Liberty always spread its joyful Wings over this Place: Liberty that opens Men's Hearts to Beneficence and gives the Relish to those who enjoy the Effects of it. And may Loyalty to a King, under whom we enjoy this Liberty, ever remain our Character. A Character always justly due to this Land, and of which our Enemies have in vain Attempted to rob us.

May those who are the Inheriters of the large Estate of our Deceased Benefactor, inherit likewise the Largeness of his Soul. May the Widow, the Orphan, and the Helpless, find in them a Protector, a Father, & a Support. In a Word, to Sum up all, May Faneuil live in them.

May Charity, that most excellent of Graces, that Beam from the Breast of the Father of Mercies, which so soon as ever it enters our Bosoms begins our Happiness, Charity, the Joy of Men, of Angels, of Almighty God; which Compleats the Felicity of Earth and Heaven: May Charity more abound among us. May it warm the Hearts of those who are like to Our departed Friend in their Fortunes, to resemble him too in his Bounties; May there be rais'd up some new Benefactors in the room of him we have lost, who shall, if possible, rival Faneuil's Spirit. And may there always remain in this Town the same grateful Sentiments, the same vertuous Dispositions, to remember their Benefactors with Honour.

[15.] The Report, of the Committee appointed by the Inhabitants of the Town of Boston at their Adjournment on the Fourteenth Day of May 1742. to End the Controversy between the Town and such Persons as they should find had Incroached or Trespased on any of the Lands or Flatts where the Guns were formerly Mounted, at the South Battery, having Attended that Service do Report as follows ——— Vizt.

The said Committee having found by many Evidences that the Hon<sup>ble</sup>. Jacob Wendell Esq<sup>r</sup>. doth Improve about One Hundred & Fifty feet of the Ground where the Line of Guns was formerly Mounted, and has Erected or Built a Wharfe and Warehouses on said Ground and Flatts before it, and now Claims the same, as his own property, In Order to Recover the same for the Use of the Town, to be Improved as formerly the said Committee did Advise with Gentlemen learned in the Law who assured them that as the King had for many Years Improved that same Land and Flatts for a Fortification, and had never Released it or given it up that the said Committee could do nothing on the part of the King, by way of Reference or Accommodation with the said Jacob Wendell Esq<sup>r</sup>. for that the King referr'd none of his Affairs, but that His Majesty's Title, must be Tryed in the Law, before any thing could be done on the part of the Town, the said Committee therefore Employed John Overing and Jeremy Gridley Esq<sup>rs</sup>. for their Council who filed an information or Complaint against the said Jacob Wendell Esq<sup>r</sup>. at the Superiour Court of Judicature, Court of Assize &c. held at Boston in February. 1742. for not removing those Incumbrances from off said Battery Ground, which Complaint was Continued to the Superiour Court in August following, when a Tryal was had on the Information aforesaid, before a Jury of Non Residents who went and Viewed the Premisses, and altho' there was a Cloud of Evidence to prove the Facts, And the said Jacob Wendell Esq<sup>r</sup>. Acknowledged before the Jury, that he had Built upon part of the Towns Ground and Flatts, Yet the said Jury brought in their Verdict that he was not Guilty, and accordingly the said Complaint was Dismissed by the Court on the part of the King, which made many People think that it went at the same time also against the Town, and that the Committee ought not to proceed any further in this Affair, but the Committee knowing that the Way [16.] Was now Clear for coming to an Accommodation with the said Jacob Wendell Esq<sup>r</sup>. in the behalf of the Towns Right to the aforesaid Land, They did desire by their Chairman that he would give them a Meeting in Order to Referr or Accommodate the Dispute between him and the Town, but he utterly refuses to Transact any Affair with this Committee (for reasons best known to himself) The Committee therefore Seeing no Prospect of Settling the Towns Rights, with said Jacob Wendell Esq<sup>r</sup>. without going further into the Law, which they are unwilling to do, without the Towns Especial Order, They therefore think it proper to Acquaint the Town that they have proceeded thus far and Submit it to the Inhabitants for their further Consideration.

[35.]

Boston May. 4<sup>th</sup>. 1744.

Christopher Kilby Esq<sup>r</sup>.

Sir

Your Letter of the 11<sup>th</sup>. of February with the Two Annexed Copys of Your Letters to Mr. Palmer were duly received by the Selectmen & by them Communicated to the Inhabitants of the Town.

We Observe with great Concern that You have declined Engaging for the Town in their Cause with Francis & others and We cannot think You can be Justified in Your Severe Expressions & the Resentment You have shewn which have proceeded from Mistakes or Misinformations.

We cannot Answer for the Views or Prejudice of every Inhabitant but We are well Assured it was far from being the design of any Considerable Number much less of the Majority of the Town in joining M<sup>r</sup>. Palmer to put any Slight upon You or shew the least Distrust of Your Capacity or Fidelity in Pursuing the Interest of the Town, but it was Used as an Argument with the Inhabitants that the Appointing M<sup>r</sup>. Palmer and You by a joint Vote would have the Appearance of this being the beginning of the Town's inserting themselves in the Affair and so any Objection that might be made that they had already by You their Agent Acknowledged the Jurisdiction of the King in Council would be Removed, whatever Weight there might be in this Argument Yet it was the prevailing One.

We are Sorry for the unlucky Circumstance of the Papers being Sent You by M<sup>r</sup>. Palmer under a Wrong Cover both the Original & Duplicates that went from the Selectmen were Superscribed by the Town Clerk & by him put in the Bag or delivered the Captains of the Ships they Went by, And M<sup>r</sup>. Palmer Undoubtedly is Capable of Satisfying You of his Mistake.

You Mention a Letter being received by You Signed by Six only of the Selectmen, the Seventh was not then in Town, if he

had been he would readily have Signed it & he joined with the rest in Voting the Letter to be Sent You.

As these Circumstances which were a great reason of Your refusal & in the light they Appeared to You must seem extraordinary are thus Explained & Cleared, We hope You will still engage in this Affair which We look upon to be of very great Importance to Us and in which We very much desire Your Assistance, And as there was no design the Three Hundred Pounds Sterling should fall into the hands of One Agent any more than the other, We expect & doubt not that it will be Applied for the Service of the joint Agency in proportion to the Charge either of You have been or may be at.

We are, in the Name & by Order of the Town.

Sir, Your very humble Servants.

[36.] Mess<sup>rs</sup>. John Greenough Sworne }

The Committee appointed the Twenty Sixth of June last, to prepare the Draft of a Letter proper to be Sent to the Agents to Inform them what the Town have further done relating to their Controversy with Abraham Francis and others, Reported that, they had accordingly prepared the same which was Read & is to Stand in the Words following — Vizt.

Boston August. 1744.

Gentlemen,

Upon Receipt of M<sup>r</sup>. Palmer's Letters of the 18<sup>th</sup>. of February & 9<sup>th</sup>. of March last, the Selectmen Warned the Town to meet, specially to Consider of the Affair of M<sup>r</sup>. Francis and others, their Controversy with the Town, in its present Situation and Circumstances, and according, the Town met, as You See (by the Votes now Sent) Once and again, and after large Debates

& long Deliberation, they came to the Resolution of Adhering to their former Instructions, without so much as One Vote to the Contrary, when the Negative was put, which You See is particularly exprest in the Record of the Vote. —

We Observe what M<sup>r</sup>. Palmer Says, that the Lords of Council [48.] Refused to hear any pleading upon the Petition of the Council & Assembly of the Province, It is possible it might be tho't Needless or improper to Argue a point that a particular Cause then depending, wou'd be much Affected by, before that cause came on, but however that may have been, We must press You, that in a decent humble manner, You insist on Our being heard on Our pleas in Bar, because, if We are refused, there are Several pleas beside those from the Charter, which respect the false representations & Abuses put upon the Town, in the Petition, that bro't on the Order for an Appeal, which will escape being heard also, and which, if they are heard, will, We doubt not, prove very clearly, that there is Nothing in the last Petition, that was Accepted different from the former, that was rejected, but Falsehoods.

We hope the light, in which We Set the Affair of Chusing You Agents for the Town, jointly & Severally & their other proceedings, has Satisfied M<sup>r</sup>. Kilby, that he had not Occasion given him by the Town, for so much Resentment and such harsh Expressions in his Letter of the Eleventh of March last, or to refuse the Agency, and therefore that he will readily do all in his power, to Serve Us in this important Affair. —

And after a Short Debate thereon —

Voted, That the same be Accepted & that the Selectmen be and hereby it are directed to Sign the same in behalf of the Town & forward it to the Agents by the first Opportunity.

The Town proceeded to take into Consideration the Petition of a Number of the Inhabitants of the Town to the Selectmen Setting forth, That the Taxes Assessed upon the Town are so very Burthensome, that many, even of the Richest of the Inhabitants are groaning under the Weight of them & they Apprehended with great reason — That the Middling Sort of People are daily decreasing many of them Sinking into extream Poverty — That not only the Trade is visibly decreasing, but many honest Tradesmen are without Employ, the Trade of Building Houses being in a manner Stagnated, as well as that of Building Ships — That in the last Supply Bill made by the General Assembly, the Funds are laid within the Year. 1746, and the Taxes made for the same, whereby they Apprehend the [49.] Succeeding Assemblies are foreclosed granting the People any Relief, as in the Year. 1741. when the Burthen was so great (Occasioned by the Expedition to the Spanish West Indies) as that the General Court looked on themselves bound in Compassion to their People, to Postpone the Funds to some further time, which, had the Taxes been made as now, could not have been done — Wherefore this being a Matter of the greatest Consequence to the Province in general, & the Town of Boston in particular, the Petitioners prayed the Selectmen would grant a Warrant to Convene the Town to give

Instructions to their Representatives relating to the next Supply Bill, or any other Articles of Importance, if the Town See cause.

And After a Considerable Debate, thereon, It was

Voted, That a Committee be Chosen to Draw up Instructions for the Representatives of the Town relating to the Several Matters mentioned in said Petition, and that said Committee be directed therein Strongly to Urge that the Representatives Use their best Endeavours to have the Funds put beyond the Year. 1746. Also that the Taxes be not laid at the same time the Treasury is Supplied. but that it be left to Succeeding Assemblys to do the same, and that it be an Article in said Instructions that the Representatives also Endeavour that We have some Relief as to Our proportion of the Publick Taxes — and then

Voted, That the said Committee Consist of Five Persons, And accordingly,

Ezekiel Lewis	} Esq <sup>r</sup> .
Samuel Welles	
James Allen	
Samuel Adams &	
Abiel Walley	

were Chosen to be the said Committee for the purposes aforesaid, and they are desired to make Report of their doings herein at the next Meeting.

Then the Meeting was Dismissed.

[50.] At a Meeting of the Freeholders & other Inhabitants of the Town of Boston duly Qualified and lawfully Warned in Publick Town Meeting Assembled at Faneuil Hall on Tuesday the Twenty fifth Day of September, Anno Domini, 1744.

James Allen Esq<sup>r</sup>. was Chosen Moderator (by a written Vote)

A Petition of Sundry Inhabitants praying That Faneuil Hall Market may be Opened on Saturdays in the Afternoon & on the whole of those Days preceeding Thanksgiving and Fast Days — Read.

A Motion made by M<sup>r</sup>. Jeremiah Allen that a Committee may be now Chosen by the Town to Audit the Accompts of the Committee that were Appointed for Building the Batterys.

The Committee appointed the fourteenth of August last to draw up Instructions to be given to the Representatives of the Town of Boston, having Attended that Service, now made Report of a Draft they had prepared, in the following Words, Vizt.

To Thomas Cushing Esq<sup>r</sup>. M<sup>r</sup>. Timothy Prout  
Thomas Hutchinson & Andrew Oliver Esq<sup>r</sup>.

Gentlemen,

We have in Confidence of your firm Attachment to the Interest of the Province in general & of this Town in particular, Chosen You to Represent & Act for Us, this Critical Year in the Great & General Court, and as We hereby put Our Lives & Estates into your hands and do You the highest Honour in Our power, by placing in You the highest Trust. We Apprehend it Our Duty,

according to the Example of Our Mother Countrey & frequent Practice of this, to Let You know Our Sentiments and Inclinations in some Affairs of great Importance to the Province, but particularly to this Town.

[1.] We would especially Recommend to Your Care, the manner of Supplying the Treasury, We need not Observe how much the two Succeeding Years are loaded with Taxes, already laid, & therefore how Oppressive it will be to increase the Burthen, already almost insupportable by laying any of the extraordinary Charges of the War on those Two Years, for either it must be Concluded, when You make the Promise, to Neglect and break it, or to ruin the [51.] Province, both which, We trust you would be far from, & therefore We direct & Urge that you would take the third and only practical Method of laying the Funds, on some future Unincumbered Years; and this is Agreeable to the Usage of all Wise States. so to Order their Affairs, that the great & Excessive Charge of War, may be defrayed and paid in the Days of Peace, when the People are at Leisure to Till the Ground, and may with Safety, Suck of the Abundance of the Seas: and not make Grim and Savage War, look yet more terrible, by Voluntarily & Wantonly Adding the Ghastly Visage of Hunger & Nakedness.

2. We would further press You to Use your best Endeavours, that the Taxes be not laid when the Supply of the Treasury is made, but that future Assemblys (who will best know the Circumstances and Ability of the Province) may have the Opportunity of Consulting the Safety and Weal of the Publick, of which right, they ought by no means to be debarred, We are Sensible that in times past, there have been some Mistakes made, from which Inconveniences have arisen, which might have been prevented, had the Taxes been laid irrevocably when the Funds were Agreed on; but We had not then the Experience We now have, of the Nature and operation of Bills of Credit; Nevertheless howsoever that might have been, We cannot Suppose, because in some extraordinary times, when a Party Spirit has run high, there have been some Abuses of Our Liberties and Priviledges that therefore We should in a Servile manner give them all up. And have Our Bread & Water measured out to Us by those Who Riot in Luxury & Wantonness on Our Sweat & Toil and be told perhaps by them, that We are too happy, because We are not reduced to Eat Grass with the Cattle.

3. We must further direct You, to Use your Interest, that this Town be Abated in their proportion of the Publick Taxes as now Assessed; As Trade and Navigation abroad & Ship building ashore are the business of the Town and means to enable them to pay, when these fail. as it is visible they all do, since the French War: especially Building of Ships which is almost wholly Ceased, Our Proportion of the Taxes must Abate & Cease accordingly, or we must make Brick without Straw.

4. We further expect, as You regard the good of Town or Country, that you will be very watchful, and do all in your power, that none [52.] Who have a Visible Temptation to Prostitute

the Publick Interest and Treasure, to Serve their own, may be improved or have Opportunity given them for it; We also desire You carefully to Avoid men, Who from a Mean & Servile Complaisance to those in power, would Complement away Our Estates & Liberties nor let these de-picable Tools, from the Supple & Contemptible figure they make, be tho't below your Care or Notice, Remember that great Mischief may arise, from the deceitful Cringing & fawning of the Spaniel, as well as from the Polluted and Rapacious Jaws of the Mastiff.

The aforewritten Draught, is what We Apprehend the Town inclines, should be given the Representatives as their Instructions; — All which is humbly Submitted,

by EZE: LEWIS  
SAMUEL WELLES  
JA<sup>s</sup>. ALLEN  
SAMUEL ADAMS  
ABIEL WALLEY.

The said Report having been Read Several times.

After some Debate thereon, Voted That the same be Considered of Paragraph by Paragraph, And thereupon the First Paragraph was Read & Voted that the same be Accepted;

Then the Second Paragraph being Read —

Voted, That the same be Amended by having the Words at the Close thereof Vizt. “And have Our Bread & Water measured out to Us by those who Riot in Luxury & Wantonness on Our Sweat & Toil and be told perhaps by them that We are too happy, because We are not reduced to Eat Grass, with the Cattle.” entirely Obliterated.

And then the Third Paragraph was Read.

Voted, That the same be Accepted.

And then the Fourth Paragraph was Read — and Voted, That the whole thereof be Obliterated

And then the said Draft (as Amended) was Read & thereupon,

[53.] The Petition of Sundry Inhabitants praying that Faneuil Hall Market may be Opened on Saturdays in the Afternoon & on the whole Day before the Thanksgiving & Fast Days, was Read again, And after some Debate,

Voted, That the said Petition be Dismissed.

Mr. Jeremiah Allen desired to withdraw the Motion he made at the Opening of this Meeting, for having a Committee Chosen to Audit the Accompts of the Committee appointed to Build the Batterys, being Informed that the said Committee had not as yet received in all the Acco<sup>ts</sup>. for Building the same.

The Town proceeded to take into Consideration the Petition of a Number of the Inhabitants to the Selectmen for Calling this Meeting, Setting forth that the Inhabitants labour under a great Load of Taxes which on the Acco<sup>t</sup>. of the War is like to be Encreased, that the Collectors are greatly in Arrear with the Province Treasurer, & are Solliciting that the Tax Books for the Year. 1744. may be put into their hands, praying the Selectmen would not deliver 'em said Tax Books until the Town should Advise thereon, And after some Debate thereon, the Treasurer inform'd the Town that he Apprehended the Several Collectors had paid off (including their own Fees) the whole they were Indebted to the Town, that he now had Draughts made upon him by the Selectmen and Overseers of the Town for Several Thousand Pounds Old Tenor, & that there is no Money in the Treasury to Discharge them, And if the Town would not deliver to the Collectors Elect, the said Tax Books for the Year. 1744. they would take some other Method to have the Treasury Supplied in Order to pay off said Draughts.

Whereupon it was Moved and accordingly — Voted That the Assessors Deliver the Tax Books to the Town Treasurer, & that such of [54.] The Inhabitants as shall pay to said Treasurer their Tax for the Year. 1744. at any time before March Meeting shall be Allowed at the time of Payment Five Pounds on the Hundred & so in proportion for any greater or less Sum he shall pay in and that the Treasurers Receipt for said Tax shall Sufficiently Discharge the Person paying the same.

And after a long Debate thereon —

The Town Apprehending That Difficulties would Attend Com-

mitting at this time the Tax Books to the Collectors for the present Year but yet that it is of Necessity a Considerable Sum of Money Sho'd be immediately raised for defraying the Expences of the Town.

It was Moved & accordingly Voted That any Person or Persons Taxed the present Year who will Lend the Town Treasurer at any time before the Twentieth of March next any Sum or Sums of Money to Answer the present Exigencies shall be Allowed Five p Cent on the Sum so Lent, The Principal & Premium to be Discounted by the Collectors out of their said Tax when Committed to them. —

The Committee Appointed yesterday to prepare a Draft of a Petition to the Hon<sup>ble</sup>. House of Representatives relating to the Grievances this Town Labour under by reason of the proceedings of the Governour and Council in repeatedly Granting press Warrants &C<sup>a</sup>. now made Report of a Draft they had prepar'd in the words following Viz<sup>t</sup>.

The Committee, appointed to draw up a Petition to the Honourable House of Representatives relating to the Grievances by Impress Warrants &C<sup>a</sup>. have attended that Service and Report the following Draft, Viz<sup>t</sup>.

To the Honourable the House of Representatives.  
Shew.

The Inhabitants of the Town of Boston in Town meeting legally Assembled.

That your Petitioners, labouring under great & insupportable Grievances by means of the late Repeated Warrants to impress Seamen for his majesty's Ships, as also the male behaviour of the Officers are Constrain'd to lay the same before your Honours, who are instructed to your Constituents with the Sacred Depositem of their invaluable Rights and priviledges, of which by the Constitution you are the natural Guardians, and with all Dutiful Respect your Petitioners would Say, They have chearfully complied with all the Injunctions of Government, altho their Taxes which are daily increasing have been [91.] A Burthen under which they are almost ready to Succomb, But this notwithstanding, as also the present melancholy Stagnation of Trade and Commerce which is like to be continued during the War, yet your Petitioners have lately been distress'd by no less than three several Warrants for Impressing Seamen which (altho we apprehend 'em to be illegal) have been executed in an oppressive manner, before unknown to Englishmen, and attended with Tragical Consequences. By which means the numbers of Seamen Impress'd for his Majestys Ships and those who have fled to the neighbouring Governments for Protection from Impresses, added to those who went in the Sea Service to Cape Breton amount to more than Three Thousand; whereupon the neighbouring Governments have not only had a sufficient number of Seamen to navigate their Trade with but also so large a Surpluss of men as to enable them to man within the province of New York & Colony of Rhode Island near Thirty sail of Privateers, exclusive of those fitted out from the other Governments, when the once Cherish'd now Depress'd, once Flourishing

now sinking Town of Boston, have been so far from being able to man any privateers, that she has wanted men to man the merchant Vessells, some of whom have had their Cargo's much Damnified, by having them long Ship'd before they could get men to navigate their Vessells, and all these Grievances are greatly aggravated, when it is considered that Boston is the metropolis of that province who has been the principal in the Reduction of Cape Breton, which added to her former Military Atchievements for Loyalty justly sets her at the head of his majestys provinces, and that those other Governments (New Hampshire and Connecticut Excepted) have bore no part of the Burthen of the War, nor had any hand in the Expedition, but have been reaping unknown advantages by our misfortunes in having seamen to Carry their Vessells to the best markets, while ours with their Cargos perishing on Board lay by the Walls, for want of navigators, But the Injury is still heightened by the Behaviour of the Officers, who with their Lawless Rabble, like ruffains entered the Houses of some of the Inhabitants in the night to their great Terror, and acted Tragical Scenes, which was closed in the inhumane murder of two brave men, who had been employed in the hottest Service during the Expedition and with their Fellows had Quitted themselves like men, This Tragical Scene seemed to have so little Effect upon the Sheriff of the County of Suffolk (who by his Office is the Grand Conservator of the peace) that when a Warrant was issued by the Hon<sup>ble</sup>. Samuel Danforth Esq<sup>r</sup>. & Thomas Hubbard Esq<sup>r</sup>. against the offenders which was by one or both of those Gentlemen delivered to him he delivered the same into the hands of Nathaniel Hasey then a Depty Sheriff, and the second named Criminal in said [92.] Warrant to be executed by him, instead of Executing it upon him, as by his Oath and Office he was Bound to do.

All these matters your Petitioners Apprehend proceed from the Warrants to Impress Seamen, which they conceive are Breaches of Magna Charta, The Charter of the province, and an act of Parliament Subjecting any Captain of a man of War to the Penalty of Twenty pounds Sterling Fine for every Seaman such Captain shall impress in the plantations, and they also Conjecture that under pretext of Executing those Warrants the faith of the Government plighted to those brave men, who engaged in the Expedition has been notoriously Violated.

Wherefore your Petitioners humbly Pray your Honours as tender Fathers, would take our most pitiable and most deplorable Circumstances into your wise Consideration, and Assert our Invaded Rights and privileges by Remonstrating to the Governour and Council against such Warrants, as also against the unjustifiable Conduct of their officers.

The foregoing Draft is Submitted by,

Mess <sup>rs</sup> . Ebenezer Holmes . . . Sworn	} Clerks of the Market.
William Taylor . . . Sworn	
Harrison Gray . . . Pay	
William Cooper . . . Sworn	
John Boylestone . . . Sworn	

were chose Clerks of the Market for the Year ensuing.

[100.] The Committee appointed at the opening of this meeting the 31<sup>st</sup>. of March last to wait upon his Excellency the Capt. General to ask his Liberty to View the present Batteries in Town and see what Stores and repairs are wanting and also to Consider what they Judge necessary for the Town further to do to put themselves into a better Posture of Defence Now Reported, That they had carefully Viewed and Sounded the Channel from the narrows up to the middle Ground a little Eastward of Castle William, and found that at this lower middle Ground, the Channel is Two hundred and forty feet wide of the Depth of Twenty four feet, that for Nine hundred and Sixty feet more it is from Eighteen to fifteen feet Deep the remainder being about Six hundred feet is twelve feet deep; and they are of opinion that it would be a great Security to the Town to sink Hulks across the Channel here on the Approach of Ships of War to Attack us that five will be Sufficient, two of about one hundred & fifty Tons & three of about one hundred Tons; and that they be got ready & fixed, ready to sink on the Shortest Warning and with Bridles to weigh them when the Danger is over, and that they be mored near the place, and that Buoys be fixed where they are to be sunk that the Channel may be stopt in a few hours time on the Approach of an Enemy. —

They have also viewed the several parts of the Town more especially the South Battery & apprehend a Line of about Twenty Guns before the Sconce, extending about North from the upper or Western End of Col<sup>o</sup>. Wendells Wharffe two hundred and Sixty four feet thirteen feet high and Thirty feet Wide with a proper Brest work and Platform would be a Considerable Security, which by Consultation with masons and carpenters they find may be made, either wholly of Square Timber with Boxes filled with Ballast or by a front Wall of about Ten feet thick and Eleven feet high, Strong Built, with a good face the Room behind to be filled with

Timber and Stone or with dirt as may be found Cheapest or most Expeditious.

The Committee find thirteen Guns wanting in the North Battery and many necessary Stores deficient both there and at the South Battery.

They apprehend a Battery of Eight Guns on the End of the long Wharff and another of Four on the End of Clarks Wharffe would be very necessary in a time of Danger,

That they had carefully considered the Cost of the most material of the above mentioned Particulars, and are of the opinion that the [101.] Hulks if new with the Charge of Sinking them, Cordage anchors Labour &C<sup>a</sup>. will amount to Five Thousand pounds new Tenor, that the Wharff at the South Battery if of Stone in the Front as proposed will amount to fifteen hundred pounds, if of Wood and Ballast Twelve hundred and fifty pounds, both new tenor, Gun Carriages £7., 10/ each.

They are a further of opinion that in some proper way, the Town endeavour that the province should be at the above mentioned Charge or at least lend the money to be paid in future years by the Town without Interest — And the same being twice read over and a considerable Debate had thereon, It was Moved and Voted that the Thanks of the Town be and hereby is given unto the said Committee for the great pains they have taken in this affair. — And then it was,

Voted that the Hon<sup>ble</sup>. Jacob Wendell and Samuel Welles Esq<sup>r</sup>. John Fayerweather Esq<sup>r</sup>. Col<sup>o</sup>. John Hill, Col<sup>o</sup>. William Downe and M<sup>r</sup>. Isaac White be a Committee to wait on his Excellency the Captain General and Represent to him that in pursuance of the Leave he was pleased to Grant to View and Consider what might be further needful for the Security of the Town in a time of Danger, they have Viewed the Channel near the Castle and humbly apprehend that it may be Stopped by Hulks sunk across it so as to Render it Impracticable for any Ships of War to Approach so near the Town as to annoy it, and the Committee are directed humbly to request his Excellency if in his Wisdom he thinks well of the proposal to use his Influence that this may be Effected at the province Charge or that his Excellency would take such other methods as in his paternal Care and Goodness he may Judge best for the Towns Security.

Voted that all matters and Things that remain unfinished be Referred over to the next General Town meeting to be then acted upon. —

Then the Meeting was Dismiss'd.

Province of the Massachusetts Bay	}	To his Excellency William Shirley Esq <sup>r</sup> . Captain General and Governour in Chief the Honourable the Council and House of Representatives in General Court Assembled May 28 <sup>th</sup> . 1746.
--------------------------------------	---	---

The Petition of the Town of Boston in the Province aforesaid. —

Humbly Sheweth,

That your Petitioners Apprehend what they are obliged to pay of the province Tax is very much beyond their proportion ; by this they would by no means suggest any the least injustice or partiality in this high and Honourable Court, but humbly conceive it arises from the want of a proper Representation and knowledge of the particular Circumstances of this Town which the said Town of Boston now beg leave humbly to lay before your Excellency and Honours. —

It is very obvious that it cannot be the Share or the quantity of the Land of the Province, which the Town of Boston contains that Subjects them to this large proportion for their Land is but a Pitance scarce one third so much as the least Town in the Province, but it must be some adventitious and peculiar Advantage they have from their Navigation, Commerce Manufactures Numbers or Wealth [111.] Of the People Inhabiting here ; and if it shall appear that in all these things there is a great alteration to the Disadvantage of the Town we doubt not but agreeable to your Excellencys and Honours known Justice and goodness you will alter their proportion of the publick Charges.

As to our Navigation, the French War brought the Kings Ships

here to man, which raised the Sailors wages to such an Extravagant height and has totally banisht so many from us, that very often our Ships have been kept so long in port that their Cargo have been almost or quite Ruined.

Our Trade & Commerce has consequently gone to other Maritime places in this province where it is very well known foreign Commerce and Navigation are greatly increased they being at more Liberty to sail and Return as their Interest requires then we are and for that very reason able to get hands and carry on their Affairs much Cheaper and to far greater profit, and this has again enabled them to take from us the Supplys for this Fishery here, and also to take to themselves the Benefit of carrying the fish to foreign Ports. — The same may be said as to Shipbuilding the ancient and almost the only Manufacture the Town of Boston ever had, diverse places in the province (more especially the Town of Newbury) are under Advantages beyond Boston and have taken from the Town a large proportion of this Business. —

And for some years past there has been a new method of Supplying the Town of Boston with Flesh of every kind, this heretofore was principally by Butchers who dwelt in this Town & killed almost all the meat this people had both large and small but especially all large meat almost without a Single Exception this naturally Supplied & employed Tanners Curriers and a large number of Shoemakers and a great many others dependents and Appendages to these Occupations, whereas our Butchers who used to be Thirty in number are now Reduced to four or five and but one of them that has Business of any Consequence and he so discouraged as to be about removing into the Country; Sundry of our tanyards are thrown up and others dwindled to almost nothing, Our Curriers are gone out of Town or live Idly for want of Business; Our Shoemakers are without Leather & Employ Boston being Supplied by Shoemakers living out of Town where Leather is to be had.

And all those Butchers, Tanners, Shoemakers with their [112.] Attendants, now living in the Towns round about Boston, formerly dwelt in Town and supplied the Country as well as Town almost universally with Leather and considerably with Shoes, But now our Tanners Curriers & Shoemakers cannot Supply the Town alone with either.

These things the said Town of Boston dont mention as grievances in themselves, for it as well or better for the Individuals living in Boston to buy their meat of a Roxbury Butcher as of a Boston Butcher if as cheap or cheaper, But then if the Town be considered as an aggregate Body and a great Number of the parts which constitute this Body, be taken away and the same weight of Taxes continued as before, the Remainder must Suffer more in such Case then they did when the whole were together.

This being so Apparent from the Reason & nature of Things and impressed and confirmed by a very Sensible and powerfull Argument the unavoidable increase of the Taxes of the Remaining Inhabitants has reduced & driven many others both of the Superior and middling Sort to Remove into some of the neighbouring

Towns where they could Exercise their Faculties and many of them in this Town too every Day, and only Sleep a few Rods or miles out of the Town o night and pay but a fifth or tenth part of the Taxes they were Obliged to pay as their proportion while they lived in Boston, and by these means the Town is Reduced in the Number of their Rateable Inhabitants from near 3400 to about 2600 in a very few years time, and in this Loss some men of large Estates are gone, who professedly left the Town because they thought Boston was Assessed a larger proportion in the province Tax then the neighbouring Towns to which they Removed, This which gives our Brethren removing from us ease, leaves the Burthen most necessarily heavier on the Remainder (if the Towns proportion continue the same) and their deliverance & Joy become our greater Thralldom & Sorrow.

This has also Multiplied our poor to such a great number that in a very few years the Charges for them only are risen from little more than One Thousand to above five Thousand We might add that the Distilling Business which for Twenty or Thirty years past has employed a considerable Number [113.] Of People, is now under great Discouragements there not being molasses to be had to employ them half their time and what we have is Chiefly Imported by merchants and Traders living in Salem Charlestown Newbury Marblehead Plymouth Bristol and other Maritime places, where their Navigation is free and Cheaper at most, if not at all which places especially at Charlestown the Distilling Business is carried on largely and Distilling is also carried on at Watertown Medford and Nantucket from the last of which places a great Trade is managed abroad by this means to Newfoundland and elsewhere; all this Business not many years past was carried on at Boston, and was doubtless one great consideration by which their share of the publick Charges was Regulated. That there are great Numbers of Dwelling houses Warehouses and other Buildings the Annual Rents of which would amount to several Thousand of Pounds empty & unoccupied.

And that the Losses of this Town by Sea for the last year only amount to about £200,000 old tenor.

Wherefore your humble Petitioners pray that as our Number Navigation Commerce, Manufactures and every thing else, for which we can be Taxed, are very much decreased, our Province Tax may be lessened in proportion, or that such other Relief may be granted as to your Excellency and Honours, in your great Wisdom and Equity shall seem meet. —

And your Petitioners (as in Duty Bound) shall ever pray &C<sup>a</sup>.

The foregoing Draft is Submitted in the name and by order of the Committee. — Samuel Welles in behalf of the Committee.

Which said Draft was three times Read over and thereupon

At four a Clock in the Afternoon the Town met according to their Adjournment. — and

The Committee appointed in the forenoon to prepare a Petition to the Governour now Reported a Draft of the same which was Read and is as follows Viz<sup>t</sup>.

May it Please Your Excellency.

The Inhabitants of the Town of Boston Assembled in General Town Meeting, Apprehending Their Character & Reputation greatly Affected by the Publication of two Letters in the Post Boy of the 13<sup>th</sup> Instant, Signed by Your Excellency dated at Castle William and directed to the Secretary of the Province, beg leave to lay this their Humble Representation of the Affair those Letters relate to so far as Respects this Town before Your Excellency.

It having been reported that the Town of Boston or the Inhabitants in general, had Abetted and Encouraged the Riotors who Insulted Your Excellency and the General Court, and who Committed many other heinous offences; the said Inhabitants as soon as they could do, Assembled in Town Meeting, and notwithstanding it Appeared that the Rights and privileges of the Town have been invaded by the unwarrantable Impress that has been made of several of their Inhabitants, Yet being always sensible that this was by no means sufficient to Justify the great disorders that were consequent thereupon, They unanimously pass'd such a Vote as Vindicated the Town from the charge made against them, and a Committee of the Town waited upon Your Excellency at the Castle with a Copy of the Vote, and You were pleas'd very favourably to Receive the same, and to Express Your Satisfaction therein; and as a further Proof of the desire of the Inhabitants to Remove all Pretence for this Imputation a greater Number of them Appeared in Arms to Attend Your Excellency on your Return to Town, than has been known in any Regimental Muster, for diverse Years past.

Notwithstanding which the Two Letters aforesaid wrote as Appears [157.] by the Dates, before the time of Passing this Vote

and of the other proceedings of the Town, were more than three weeks after made Publick, and the Town as We Apprehend was thereby represented in a light very much to their Disadvantage, and altho the further Account of the Riot, and the proceedings thereupon as Published in the weekly News Letter of the Seventeenth Instant tends to clear up the Character and Reputation of the Town Yet as it must be presumed that these Letters were Published by Your Excellency's order, and the other Account does not appear to have been so, it cannot be conceived sufficient to Remove any Impressions which the Publishing of said Letters may have made against the Town.

Wherefore from a just concern that all the Actions of the Town may be fairly Represented and that the Character of the Town as loyal and Dutiful may always be preserved, the Inhabitants lay this State of their case before Your Excellency praying Your consideration of the same and that they may receive such Redress as that the Character of the Town may be made to appear to the world in a favourable light as if the Letters aforesaid had never been Published.

Boston Decem<sup>r</sup> 29<sup>th</sup> 1747.

Thereupon it was unanimously Voted that the same be Accepted, & that said Committee immediately wait upon his Excellency with a fair Copy thereof and Report to the Town his Excellency's Answer which they accordingly did, and Reported that his Excellency was pleas'd to give the following Answer in writing Viz'.

Gentlemen,

In Answer to Your Petition I must in the first Place say that I am sorry for the Occasion I had to write the two Letters to Mr. Secretary Willard, which You refer to.

As to the Publication of 'em since I find it has given a general Concern to the Town, I most readily take this Opportunity to Assure You that it did not in the least proceed from an inclination to prejudice the Carecter and Reputation of the Inhabitants, but was wholly occasioned by an insinuation in a late Pamphlet, which appeared to me to have a tendency to set part of my own Conduct upon that Occasion in a wrong light; and which I apprehended my Publication of those two Letters would Vindicate it from, and I can't but hope that my acquainting you that the Account of Your Proceedings on Frylay the 20<sup>th</sup> of November in a Town Meeting at Faneuil Hall and [158.] On the Day following, were Published by my directions in the weekly News Letter of the 17<sup>th</sup>. Instant, will be sufficient to Show that I had no desire to Represent the Behaviour of the Inhabitants of the Town of Boston, in a disadvantageous light and consequently remove all concern which may have occasioned by the publication of my Letters three days before, especially when I declare to yon that this Affair appears to me in a favourable light.

Boston Decem<sup>r</sup>. 29. 1747.

W. SHIRLEY.

After Reading the same It was unanimously Voted that his Excellency's Answer to said Petition is fully Satisfactory to the Town.

Also Voted that the Thanks of the Town be given to his Excellency for his Answer to their Petition, and that the Hon<sup>o</sup>. James

Allen Esq<sup>r</sup>. the Moderator of this Meeting, the above named Committee and the Selectmen of the Town be a Committee to wait upon his Excellency, and Return him the Thanks of the Town accordingly.

The Petition of the Minister Wardens and Vestry of Kings Chapple in Boston in behalf of themselves and the Congregation that usually attend the Publick worship of God there, setting forth

That said Chapel which has constantly been Improved for the Publick worship of God for about Sixty Years past is in many Parts of it Rotten & greatly decayed. & almost rendered incapable for that Service any longer, and said congregation out of Regard to the Honour of God and for their own Edification being very desirous that the Publick worship of God should be still Supported and Carried on in said Place, have determined to Rebuild said Church and make it some what larger more Comodious and Regular than it now is but apprehend they shall be greatly Straintned for want of Ground at the East End of said Church to Effect the same. — Your Petitioners therefore pray the Town would be pleased to Grant to said Church 34 foot Eastward for the Body of said chapel and 10 foot for a Chancel in order to enlarge the same into a Regular and Comodious Building and whereas the Town has a School house upon part of the Land which your Pet<sup>rs</sup>. Request, It is therefore humbly proposed in consideration of the Grant hereby Request. That the Pet<sup>rs</sup>. do Purchase and make over to the Town a Peice of Ground at the upper End of the Lane or Passage fronting the present School house of like Dimensions with the present, the said Petitioners not to dig or [179.] open

any Ground which the Additional Building shall cover, excepting to lay the Foundation, nor at any time to exclude those who have vaults or Tombs within the requested Limits to have free access to them. —

Your Pet<sup>rs</sup>. apprehend that the said Grant will be no detriment to the Town as the present School house is much decayed in many parts defective, and will in a Short Space of time require to be New Built, and as the place now proposed for the School, neither has nor can possibly have any Contiguous Building being Eighty eight foot long, and Seventy seven foot wide, has a free Air, a pleasant Assent & Capable of a Southely Highway to it from Bromfields Lane which if it be thought necessary the Petitioners have a reasonable Prospect of Obtaining, is very near to School Street, and yet agreeably Retired, The Town will have a larger Peice of Ground to Accomodate the School, The Chapel aforesaid and other Neighbouring houses will be less in danger from Fire and such accidents The Town Receive a New Ornament in the Buildings proposed, and all to be effected at the charge of the Petit<sup>rs</sup>. and others such well disposed persons as shall think proper to contribute to the same, for a clearer View of what your Pet<sup>rs</sup>. hereby Request we Refer to the Platts of the Ground and the Buildings annexed, Hoping the Town upon the considerations abovesaid will grant the said Petition. — was Read, and after some Debate thereon. —

To the Honourable Spencer Phips Esq<sup>r</sup>. Lieu<sup>t</sup>. Governour and Commander in Chief of the Province of the Massachusetts Bay, the Honourable the Council and House of Representatives in General Court Assembled May 30<sup>th</sup>. 1750.

The Memorial of the Town of Boston, Humbly Sheweth,

That the Inhabitants of said Town readily & cheerfully acknowledge their Confidence in the Wisdom Justice & Goodness of the Great and General Court, and obligation to submit and pay obedience to their Acts, nevertheless they humbly beg leave to represent some of the great Difficultys they apprehend, attending and consequent upon the Tempory Act pass'd in the last Sessions of the late General Assembly, Entitled an Act for Granting to his Majesty, an Excise upon sundry Articles hereafter Enumerated, for and towards the support of his Majesty's Government of this Province.

Whereupon they pay liberty humbly to observe, That as Trade and Commerce are the great Business and support of the Town of Boston and almost the only means to enable them to pay between a fifth & a sixth part of the Charge of the whole Province. if their [235.] Trade sho'd fail, it is not possible they should pay any such proportion of the publick Expence, and that Trade is in a very languishing Condition, and almost ready to leave them, is very apparent from the almost Constant bad Voyages made, even when the Ships and other Vessels go and come in Safety, to add a further weight and burthen to that which is almost ready to sink with its former Difficulties, affects the Town very much in this Critical Conjunction, when there is a profess'd design of some in the Neighbouring Governments, to strip them as far as possible of the trade they have had from their Foundation.

The Town would further humbly observe, that the Business of retailing Tea, Coffee &c. is mainly carried on by Widows and persons in low Circumstances, who generally, very hardly get a poor subsistance and sho'd this Act continue and take place, there will be danger of their becoming a Charge and burthen to the Town.

The Town begs leave further humbly to suggest to your Honours, whether this Act may not bring on the displeasure of those two great and powerful Corporations the East India & Turkey Com-

panys in our mother Country, & whether the little profit which may arise by this Act is not much over balanc'd by the Risque of their Resentment.

The Town are also much affected, with the danger of multiplying Excises, which if made effectual, will probably bring on a multiplication of Officers with very large & arbitrary power, how Consistent these things will be (sho'd they come to pass) with the natural Rights and Libertys of Mankind and especially of Englishmen, has been abundantly discuss'd and very clearly evidenc'd in our mother Country on a late famous occasion.

They are moreover very apprehensive, that these Excises will dispose many among us to remove into the Neighbouring Governments, where they may trade upon and improve these Commodities without Duties, and it is very probable that many of the Inhabitants of this Province will mainly supply themselves from the Retailers of those Articles, who dwell in the other Governments, in which case the profit of selling them, will go out of the Province and nothing at all be paid into the Treasury here, & whether when these Retailers of Tea &c<sup>rs</sup>. can with such superiour and apparent advantage trade in these things out of [236.] The Province and supply us, they will not be tempted to Sell and our people to buy of them, other Commodities also, the Inhabitants of this Province are under some natural & almost inevitable difficulties, by their being a barrier to his Majestys Subjects and Interest in North America, which has greatly increased the Taxes of this Town, as they pay so large a proportion as has been mentioned, and thinn'd their numbers, both by the Wars, and the removal of diverse of our people to the Southern Governments, the Town humbly begs leave to enquire, whether it would not greatly discourage any, even the Richest County in England, if a considerable Duty should be laid on their Consumption, when nothing at all was paid by their fellow subjects all round them.

The Town are also much Concerned that there should be laid by this Act, such a duty on Coaches, Chariots, Chaises &c<sup>a</sup>. this will fall principally on Boston which by your Honours Judgment, paid their proportion before, between a fifth and a sixth part of the Charge of the whole Province, but in this, they will pay much more than all the Province beside.

Wherefore as well as for many other reasons your Memorialists humbly pray your Honours to repeal the above mentioned Act. or allow the Duties paid by the Inhabitants of Boston to be paid into the Town Treasury for the Town's use, or grant such other Relief as to your Honours known wisdom and Justice, and paternal care and goodness shall meet and suitable to the declining and distress't state of this sinking Town.

Which being Read and Debated upon, It was Voted that the same be accepted, and that the Selectmen be and hereby are desired to prepare a fair Copy of said Memorial, Sign the same in behalf of the Town and present it to said General Court, at their next Sessions.

Voted that this Meeting be Adjourn'd to Friday the 29<sup>th</sup>. instant at three o'Clock in the Afternoon.

Friday the 29<sup>th</sup> of June 1750, three o'Clock in the Afternoon the Town met according to Adjournment.

[237.] Voted, that the Sum of Twenty pounds lawful money be allowed and paid out of the Town Treasury unto Abijah Adams in full for his Service, as Clerk of Faneuil Hall Market, for the year past.

In order therefore to replace the said Sum for the use aforesaid, It was Voted that the Town Treasurer be & he hereby is directed to replace the said Sum of Six hundred and Sixty six pounds thirteen shillings and four pence in the Town Treasury again, for the use aforesaid, as soon as he conveniently can, out of the moneys he shall receive belonging to the Town, and that he always keep the same distinct and separate from the Towns other money, in order that it may be applied for paying the Expence of Compleating the said North Battery, & purchaseing Stores &c<sup>a</sup>. for the same, agreeable to the Design of the General Courts Grant, and that the Treasurer when he shall have so replaced said Sum, do not apply it to any other use whatever, [238.] Without particular directions from the Town.

Voted, that the Thanks of the Town be and hereby is given to the Gentlemen the Committee aforesaid for their great pains and care in Auditing the Accompts of the late Treasurer Wadsworth.

Joseph Wadsworth Esq<sup>r</sup>. late Treasurer of the Town in full for his Salary for the year past as also for the Expences in his Office and all other Services he has heretofore done for the Town.

The Town having at their last Meeting agreed upon a Memorial to be presented to the Great and General Court or Assembly praying that they would be pleas'd to repeal an Act they lately pass'd laying a Duty on Tea Coffee, Snuff, Arrack and China Ware, and on Coaches Chariots Chaises &c<sup>a</sup>. for the reasons in said memorial mentioned, and Voted that the same be presented by the Selectmen accordingly. — The said Selectmen now inform'd the Town that they presented said Memorial to the General Court at their present Sessions, but that the same was Dismiss'd by said Court. — Whereupon the Town proceeded to Consider of that other Article in the Warrant relating to said Act viz<sup>t</sup>. what may be thought proper for the Town now to do concerning it, And after a long Debate thereon, It was Voted that, the Town will make application at home, in order to prevent said Acts being Confirm'd by His Majesty, Also Voted that

That your humble Petitioners have been inform'd that by a Vote of the Great & General Court in the Year 1747 It was Ordered that the Court house in Boston should be rebuilt, and that the charge thereof should be born one half, by the Province, one Quarter part by the County of Suffolk and one Quarter by the Town of Boston, and that by a Vote of the Hon<sup>ble</sup>. house of Rep<sup>res</sup>. pass'd the present Year, it was Ordered that the aforesaid Vote pass'd in 1747, sho'd be carried into Execution, and that the Inhabitants of the Town of Boston should be assess'd accordingly, but the Vote of the Hon<sup>ble</sup>. House was not passed by the Hon<sup>ble</sup>. Board. — As your Petit<sup>rs</sup>. humbly Apprehend that they would be greatly aggrev'd and Injur'd if the Vote of the Hon<sup>ble</sup>. Court in 1747 sho'd ever be pursued to Effect, they beg leave to make a short Representation of their Case to your Honours, and to lay before you their Exceptions against the said Vote.

And your Memorialist accordingly Represent that it appears

probable from the ancient Records of the Town that about the Year 1657 a House was built on the Towns Land for the immediate Use and Service of the Town, & that the [243.] Charge thereof was born by a Subscription of the Inhabitants. — It further appears from the Province Law made in the Year 1693. that the said House had some time before been made use of both by the Province and County as well as by the Town, and it was therefore by the then General Court thought reasonable and determin'd that the Charge of repairing the same should be born, one half by the Province, one quarter by the County of Suffolk and one quarter by the Town. — In the Year 1711, by the Providence of God the said House was Consumed by Fire Soon after which the General Court were pleas'd in their Wisdom to appoint a Committee to Confer with the Town upon proposals made for rebuilding said House, and upon the Proportion which the Town should bear of the Charge thereof, The Town being then destitute of any House for publick Meetings, and other publick uses, agreed to the proposals made by the General Court, with some Amendment or Alteration, and Expressed their Consent by a Vote at a General Town Meeting, and then appointed two of their own Inhabitants viz<sup>t</sup>. Thomas Brattle Esq<sup>r</sup>. and M<sup>r</sup>. William Payne to join with the Committee of the General Court in carrying on the work; and certain parts of said house were destin'd and appropriated to the Immediate use of the Town; and the Town continued to Improve the same until October 1742. — when Peter Faneuil Esq<sup>r</sup>. generously caused to be Erected, at his own Charge a commodious Building for the publick Use and Service of the Town, to which all the Papers and Records of the Town were soon after remov'd, & where all publick Meetings have ever since been held. And those Rooms in the Townhouse which had been appropriated to the immediate use and Service of the Town were then Improved for the Service of the General Court, and the Town have ever since been wholly Excluded from any benefit thereof, except by the Rents of the Cellars only, till it was last Consumed, and had it continued in the state it was in the Town would probably before this time have applied to your Honours to have freed them from their proportion of Charge they had before paid towards the constant Repairs thereof, But it pleas'd God in his providence in the month of December 1747. to Suffer the Townhouse to be again Consumed by Fire, and this while in the immediate use and Service of the General Court. Soon after which a Committee of the General Court conferr'd with the Selectmen of the Town concerning the Disposition of the Inhabitants as to their part of the Charge of rebuilding the same, but the Selectmen then did [244.] Not and declared to said Committee that they could not give any Encouragement that the Town would consent to any greater part thereof than their proportion of the Province Tax; and had the Hon<sup>ble</sup>. Court been pleas'd to make their proposals to the Town as was done by the General Court in 1712. the Town would undoubtedly have declin'd a Compliance therewith

Now your Petitioners humbly hope, that when this their Case is Considered in all its Circumstances, your Honours will Judge

favourably concerning it, they humbly Conceive that if the Town had not been provided with another House, the Compelling them to Rebuild & Improve this, whether they inclined to it or not, would have distinguished them from all the other Towns in the Province, who are at Liberty to Erect their publick Buildings when and where they please, and it is Evident that the General Court in 1712. thought the Town ought not to be compell'd, but that their Consent should be given ; Must it not then appear to your Honours a much greater hardship that the Town should be held to pay more than their proportion in common with the rest of the Province for the Charge of building a House, which they have no manner of Use and Occasion for & when those Rooms the Town formerly had in it for several years past have been and still are wholly Improved by the Province.

Your Memorialists could Enlarge upon the unequal Proportion they Imagine they Pay to the Province Tax upon the Decrease of the Polls, Buildings and other Estate of the Town. and the declining State of their Trade, but they humbly Apprehend that without this, your Honours will be Induc'd to think favourably of this their Application, and that you will not Suffer the aforesaid Vote by which they apprehend themselves to be aggrieved, to take Effect, or that you will otherwise relieve them, as to your Wisdom shall seem meet.

And your Petit<sup>o</sup>. as in Duty bound shall pray &c<sup>a</sup>.

By order of the Town . . .

Which being Read, it was unanimously Voted that the same [245.] Be accepted, and that a fair Copy thereof be prepared and Signed by the Town Clerk in behalf of the Town and that the Selectmen be and they are hereby desired to present it to the Great & General Court accordingly.

The Petition of George Lamott of Boston Fisherman, setting forth, that for several Years he has sold fresh Fish at the Market at the head of the Town Dock, which place has been improved for that use for a long Course of Years, & has been found greatly convenient to the Inhabitants, but there being no House or Shed to Skreen the Fish from the Heat in Summer, great Quantys of it are often spoil'd, a considerable Loss is thereby occasion'd to the Petif. as well as to the Publick. [258.] The Petition of James Fairservice praying the Town would Regulate the Market for the Sale of Hay & Sand, was Read &

Voted that the Town will not Sustain said Petition.

The Town Enter'd upon the Consideration of the Petition of sundry Inhabitants praying that the Encroachment's made on the highway leading from Hudson's point Southwesterly to the Mill

Stream by Mr. Gee's Building-yard called Ferry-way may be removed, and said way repair'd, and after some Debate thereon It was Voted that the Selectmen be and hereby are appointed a Committee to Consider of said Petition enquire particularly into the circumstances of said way, what the Expence of repairing it will amount to, and receive proposals from any of the Inhabitants, as to their paying any part of the Charge of repairing the same, & Report hereon at the Adjournment of this Meeting.

Voted, a Grant of Four Thousand Pounds lawful money, to be rais'd by a Tax upon Polls and Estates within the Town of Boston for relief of the Poor, and defreying other necessary Charges, arising within said Town the year ensuing.

The Hon<sup>ble</sup>. John Wheelwright Esq<sup>r</sup>. & others a Committee appointed the 12<sup>th</sup>. of March last to Audit the Accompts of Mr. David Jeffries Treasurer of the Town, now reported, that they had attended that Service and found the Accompts right cast and well Vouch'd, and the said Treasurer Charges himself with what was remaining due from the several Collectors last Year, with the Stock of Grain, Powder &c<sup>a</sup>. & what he had received from the late Treasurer Wadsworth as also for a new Tax for the Year 1750, with Several Fines received from the Justices &c<sup>a</sup>. & Rent's, all which Amount to £8782,,10,,6 $\frac{3}{4}$  & the said Treasurer discharges himself with the Draughts remaining unpaid in the late Treasurer Wadsworths time, also for what he has already paid of Draughts from the Selectmen and Overseers, & with several abatements, made the Collectors &c<sup>a</sup>. all which amounting to £6421,,10,,2 $\frac{1}{4}$  by which it appears that when all the Taxes and Rent's are paid in, the Ballance will be twenty three hundred & sixty one pounds & four pence half penny due to the Town, which the said [259.] Treasurer further is to account for as appears by the Trial Ballance on the other side of said Report, which is on File, all which is humbly Submitted &c<sup>a</sup>. — Which being Read, Voted that the same be and hereby is accepted.

The Committee appointed the 12<sup>th</sup>. of March last, to make Enquiry into the present State of the Town, and the Causes of the great Expence thereof, and Consider what Method the Town can take in order to prevent or Reduce the same, now reported, that they had met and attended that Service & having particularly Inspected the Accompts both of the Selectmen and Overseers of the Poor, agreed upon the whole to Report as follows Viz<sup>t</sup>.

1<sup>st</sup>. That the Charge of supporting the several Publick Schools amounted the last Year to more than  $\frac{1}{3}$  part of the whole Sum drawn for by the Selectmen; but altho. this Charge is very Considerable, & the number of Schools is greater than the Law requires, Yet as the Education of Children is of the greatest Importance to the Community; the Committee cannot be of Opinion that any Saving can be made to Advantage on that head; except the Town should think it expedient to come into Methods to oblige such of the Inhabitants who send their Children to the Publick Schools and are able to Pay for their Education themselves, to ease the Town of that Charge by assessing some reasonable Sum upon them for that purpose.

2<sup>dly</sup>. There are one or two Lesser Articles in the Selectmens Accompts in which the Committee apprehend there be some Saving, as in Reducing the Number of Bells daily rung, and at different hours of the day, the Committee being of Opinion that two Bells rung in different parts of the Town viz<sup>t</sup> at 5 in the morning, one at noon, & nine in the Evening, together with the Bell at the Opening of the Market would be sufficient.

3<sup>dly</sup>. And the Charge of Purchasing and Supporting Bulls, the Committee are of Opinion ought not to lie upon the Town in general, but upon such Inhabitants only as keep Cows therein.

4<sup>thly</sup>. The Committee have likewise Considered the several Articles of Charge in the Accounts of the Overseers of the Poor, but know of no Reduction that can be well made therein, except it be in the Doctors Accompts, in which they apprehend there might be considerable Saving if a Box of Medicines were laid in at the Almshouse put up and bought at first hand, out of which the Towns Physician should Administer to his Patients [260.] Without Doors as well as those within.

5<sup>thly</sup>. The Overseers having likewise laid before the Committee a List of persons confin'd in the Workhouse & made a State of that Account, the Committee are of Opinion that the Draughts made upon the Treasurer for the Support of that House is occasioned by the number of distracted, helpless & infirm people supported therein, who must otherwise have been a Town Charge, and that Exclusive of these Subjects the Workhouse is of little or no Expence to the Town

But considering the great Charges the Town is at, the Committee humbly move that it be Recommended to all who have the disposal of the Town's moneys to be as frugal as the nature of the respective Services, and the Interest of the whole will admit.

All which is humbly Submitted.

THO<sup>s</sup>. GREENE in behalf and by  
desire of the Committee.

Gentlemen,

I am extremely sensible of the Honour done me by the Metropolis of America, and had I known six months ago, how well the Freeholders and other Inhabitants of this great Town were affected towards me, I Would have applied to the Lords [292.] Commissioners of the Admiralty, to be continued on this Station; But as 'tis now too late, I can only say; that whenever the American Stations are to be releived, I shall think myself happy if I can return to a Country which has already given me such Marks of Esteem and Regard.

The Committee appointed the 12<sup>th</sup>. We apprehend it will be best to referr the Claim of each to the Determination of such persons as may be mutually chose, they to hear, and finally Judge upon the same, as thō. no Action had been brought, or Judgment given in favour of the Town and Claimers to enter into Bonds to abide by such Determination, all which is humbly Submitted by,

Number of Licens'd House are too many, more than are either necessary or convenient, and many of them (as they are now used) are nothing but Common Nusances, and unless suppressed, threaten the utter Distruction of the morals of this People, and that if Twenty persons were approbated to be Inholders, and Sixty persons more for Retailers of strong Drink within the Town, it would be fully sufficient, or Convenient— And

Whereas there are at present 36 Inholders & 126 Retailers within the Town, but the Persons thus Licens'd are constantly dying, The Committee further Report, that if the Selectmen were desired not to grant any new Licenses nor approbate any in the Room of those who may die, until their Number be Reduc'd to what is hereby reported to be either necessary or convenient, it would in time effectually remedy the Evil complained of, & in the End be of great Service to the Town, more especially, if in their approbations they would have regard that the persons thus Licens'd be of the best Characters & so situated in the Town as best to answer the necessitys thereof.

Humbly Sheweth,

That the Inhabitants of said Boston are in great Distress on many Accounts, & beg Leave to open and lay before your Honours their Calamitous Circumstances; And,

That which is most apparent & Pungent, is the present prevailing, contagious and mortal Sickness, which God in his righteous Providence, hath sent among them, the Number of such as have been sent to their graves by it, have pass'd thro' it, and been rais'd up, and of those who now Labour under it, is, about six thousand & about Three or Four Thousand more in all probability, will be Visited with it, This Expence only, if there be allowed but thirty shillings lawful money to each person, for Physicians Apothecarys, Nurses, Watchers and other Attendants. extraordinary Fire, Candles and other unavoidable Charges, will amount to an Hundred Thousand pounds old tenor, and perhaps about a Thousand persons have moved out of Town on account of this

infectious & dangerous distemper, whose Charges at the lowest computation must also be considered at thirty shillings lawful money each head, which adds above Ten Thousand pounds old tenor to the Gross Sum, divers of which persons, may probably never return, but Settle out of Town, as was the Case in the last time of the Small Pox, and if it should be thus, the Loss to the Town, will be much greater; and with this Raging Sickness and Losses by Death and Desertion, there is almost a total decay and Extirpation of Trade & Commerce, the only means of the Town's Subsistance.

These Considerations, These Complicated Afflictions are the more distressing, because they found the Town in very unhappy circumstances, occasioned by Great & Growing Difficulty's, they struggled under before, particularly,

The great Decay of Ship-Building, & the Distilling Business, these are almost the whole Manufacture, the [295.] Town of Boston ever pretended to carry on, and till of Late, almost all Ships, especially of large burthen, were Built in this Town; Whereas for some Years past, Two Tonns of Shipping have been built out of Town, to one in Town, and at Newbury, Five times as much as in Boston in proportion to the bigness of the Two Towns.

As to the Distillery, six Still Houses are wholly unoccupied and there is not one in the Town, fully & steadily Employed and most of them not half improved, owing not only to the great increase of Still Houses at Rhode Island, and to great Numbers very lately erected at New York and Philadelphia, but also too many set up in this Province, at Charlestown, Plymouth, Nantucket, Salem, Newbury, Watertown, Haverhill and Medford, and from Nantucket a considerable Trade is thereby carried on, aboard, to Newfound Land & elsewhere, which Island of Nantucket was not long since wholly supply'd from this Town of Boston with Rum and the other things too, which they now import themselves; And by means of the Fishery, a considerable European Trade is carried on from Marblehead and elsewhere, and the very men in Boston, who heretofore supply'd the Fishery and Traders is at Marblehead and elsewhere, now buy great part of their Supply of English goods of those, to whom, but a very few Years since they used to Furnish all the English or European Goods those persons had, but it is however a considerable Ease to the Town of Boston to observe, that although so much of their Trade and Manufactures be gone from them, they are not gone out of the Province.

The Town would humbly pray Liberty further to observe, that the Excise on Tea, Coffee &c. in a charge peculiarly lying on them, where almost the whole of the Publick Revenue is raised, out of the easiest, readiest, and cheapest refreshment, the Inhabitants of Boston. can take in a Morning.

They Cannot but further take notice, with your Honour's leave, that the late practice of Killing the Meat used in the Town of Boston, in the Town's round about them, has greatly thinned and weakned their Inhabitants. insomuch, [296.] That Whereas heretofore and not long since, this Town had above Thirty Butchers, many of which carried on very large Business; Those

Town Butchers kill'd much of the small meat, and all the large Beasts, almost without a single Exception, Whereas now Boston has but two or three of this Occupation, to kill either great or small meat, and they all put together, dont carry on so much Business, as some one of the thirty Butchers did formerly, and with these Butchers, the Town has lost in a great measure, the Tanning, Currying and Shoemaking Business, in which they formerly supply'd themselves and much of the Country, but now have not enough for themselves, but receive Hides, Tallow, Skins, and Shoes from other Towns.

The Town of Boston would beg leave finally to observe, that great Difficulty has risen in the Commerce of the Town, by the late Change of the Medium, the Inhabitants of Boston would by no means object against or find fault with the Act and Order of the Great and General Court, but how necessary and wholesome soever, this might be to the Province in General, it is most certain, that since this Change, The Town of Boston has almost wholly, lost their Trade to Connecticut and Rhode Island.

These things as they have lessened their number of Rateable Inhabitants about a Thousand, from between three and four Thousand, to between two and three Thousand, so they have greatly increas'd their Poor to such a Degree, that the Charge of the Poor has risen from a Thousand or Fifteen Hundred Pounds, to Ten Thousand Pounds old tenor, in but a short time; Ten Thousand Pounds was raised last Year for the Poor, & this Year much more will be wanting, beside private Charity, which is tho't to be as much or more than the Poor's Tax.

Upon the whole Considering how much our numbers are lessened, the great Loss and Stagnation of Trade, the consequent and necessary increase of our Poor, the universal Distressing, and Expensive Sickness, the Cost of which only [297.] Must this Year be much above an hundred Thousand pounds old tenor, The Town humbly pray and hope, your Honours will Compassionate their Case, and make them some Grant out of the Province Treasury, Remit or Lessen their Tax, or some other way grant them relief. as to your Honours great Wisdom, Equity and Goodness, shall seem meet, and your Petitioners, the Inhabitants of the Town of Boston, as in Duty bound,

Shall ever pray &c<sup>a</sup>.

Which was Read, and thereupon It was Unanimously Voted that a fair Copy of said Petition be prepar'd & Sign'd by the Town Clerk, and that said Committee present the same to the Great and General Court now Sitting.

The Committee appointed the ninth day of March last to draw up Reasons to the General Court why the Bridge leading over Neponset River ought not to be declared a County Bridge, and maintain'd by the County, Inform'd the Town that they had drawn up such Reasons as they Judg'd proper, and presented 'em to the General Court, and desired Liberty to Read a Copy of said Reasons given in to the General Court, which were Read, Voted that the same be Enter'd upon the Records of the Town.— the same being as follows Viz<sup>t</sup>.

To the Honourable Spencer Phips Esq<sup>r</sup>. Lieu<sup>t</sup>. Gov<sup>r</sup>. & Commander in Chief, The Hon<sup>ble</sup>. the Council, and House of Representatives in General Court Assembled at Cambridge April 2<sup>d</sup>. 1752. — The Answer of the Town of Boston, to the Petition of the Town of Dorchester, praying that the Bridge over Neponset River, near the Paper Mill may be the Charge of the County of Suffolk,

Humbly Sheweth,

That your Respondents readily acknowledge the said Bridge to be of great use & benefit, & that considerable Repairs are now much wanting, But they apprehend that this Bridge ought from time to time to be built and repaired by the Town of Dorchester & Milton, between which Towns it is situate, for in this manner, [298.] The other Bridges in this County and thro. the Province are generally erected and maintain'd; Nor can we find, after Diligent enquiry, that any Bridge in any other County, thro. the whole Province, is or has been built, or repaired at the Charge of the County.

The Building and maintaining Bridges over the Water in Rivers, is very much of the same nature and for the same purpose of accommodating Travellers and other passengers, as the putting in order and repairing highways upon the Land, and by the General usage of the several Towns thro. the Province, are at the Charge of each Town, where such highways and Bridges, are, and if this be reasonable in General, it is peculiarly so, as to this particular bridge, for it is between the two considerable Towns of Dorchester and Milton, & therefore as the Cost is divided, it cannot ly heavy upon them especially, if we remember the advantage of such a number and variety of Mills, such a plenty of Fish & such convenient water carriage to and from Market as they are accommodated with, by the River, this Bridge Crosses.

Your Respondents would beg leave, humbly to observe that the Town of Boston is at much more Charge in proportion to their Numbers, as to Bridges, Causways and Streets or highways, than the Towns of Dorchester or Milton; the Cost of the Draw Bridge, the Bridge in Middle street and the long and difficult Causways over the Neck with the paving and Repairs of other Streets, is out of all proportion beyond the Charge of Dorchester and Milton as to this and all other Bridges and Highways in those Towns, and the Case seems to be considerably the same with most if not all the other Towns in the County of Suffolk; It will be found by a strict Observation and Comparison that scarce any Town in the County have so little Charge lying on them in proportion to their Circumstances, as the two Towns of Dorchester and Milton, without considering their advantage of Mills, Fish, and Water Carriage to Market, as abovementioned. [299.] It is probable, that it will be alledg'd, that this Bridge has been a Charge to the County, & it cannot be deny'd; But it was not built at first by the County, but by the Towns of Dorchester and Milton, with the Assistance of some particular Men; when or how it came to be a Charge to the County is more easy to Guess than to Affirm; But Certain it is, that for Sixty Years past it could not legally be made a Charge

to the County; For the Law has given the Court of General Sessions of the Peace no such power, and if there was any such power under the former Constitution, the present Legislature's taking it away, or not renewing it is a sufficient Intimation that it ought not to be Exercised and it seems high time now, to observe the Direction.

It is also objected, that this Bridge is not of such peculiar Service to Dorchester, being at the extremity of the Town were the Inhabitants more seldom pass, but your Honours will Consider that this is the Case of many other bridges which yet other Towns Erect and Repair, & Dorchester Inhabitants when they have occasion pass over them, & no reason can possibly be given why other Towns should provide Bridges and keep them in repair, Circumstanced as this Bridge is, for Dorchester Inhabitants, and the Town of Dorchester not be obliged to provide in the same manner for the Inhabitants of those other Towns.

Upon the whole, The Town of Boston humbly begs your Honour's leave to move, that as it appears to be neither Legal nor equitable, that the County should be charg'd with the repairs of this Bridge; That the Petition of the Town of Dorchester may be Dismiss'd, and the Towns of Dorchester and Milton be obliged to repair their Bridges, and keep them always in good order as other Towns, much less able are necessitated to do.

And your Respondents shall ever pray &c<sup>a</sup>.

To the Honourable Spencer Phipps Esq<sup>r</sup>. Lieutenant Governour and Commander in Chief of the Province of the Massachusetts Bay, The Hon<sup>ble</sup>. the Council and House of Representatives in General Court Assembled, May 30<sup>th</sup>. 1753.

The Petition of the Town of Boston,  
Humbly Sheweth.

That they readily Acknowledge it, a great favour of divine Providence that they live under a Government, to which they may freely apply, and from which they may Obtain relief under any pressing difficulties, of which they have had a recent instance, by the gracious Grant out of the Province Treasury in the late distressing time of the Small Pox, which bounty they mention with a very humble and grateful sense.

[321.] This Encourageth the Town in their present Case, to lay open before your Honours their Circumstances and distresses ; It is very obvious that the Extent of Land in Boston, is the least of any Town in the whole Province and of consequence, that their great proportion of Taxes, may be founded on some adventitious circumstances which must be the Commerce or Manufactures carry'd on there, in which it is very certain and plain, that the Town of Boston, heretofore had very greatly the Advantage, it being almost the sole Seat of Foreign Trade, receiving and exporting almost all the Commodities produced by this and the neighbouring Governments, and supplying them with such Foreign Goods as this Town imported and as the others stood in need of ; There was also, from the earliest days of the Town a great and growing benefit by Ship-building, not only for their own Use and Navigation which was formerly all that went abroad from New England, but also for Sale in Our Mother Countrey, in the whole not less than Five or Six Thousand Tons of Shipping were Built Annually in the Town, and the larger sorts of Ships till lately were almost wholly built there ; This necessarily Employed and brought into Town a great number of Shipwrights, Blacksmiths Ship-joiners Ropemakers, Blockmakers, Sailmakers, Riggers, and other Labourers as well as Sailors, all which mainly resided in Boston, and added to their numbers and Wealth, and help't to pay the Towns proportion of Taxes ; whereas, now, three quarters of the Shipping are built out of this Town and more especially at Newbury ; and about Forty Years since, begun a considerable branch of Business by Distilling Molasses or Treacle as it is call'd at home, and refining Sugar ; These Manufactures for near Twenty Years were wholly confued to the Town of Boston, and there was scarcely a Still house or Sugar house any where else, in this or any of the Neighbouring Governments ; This bro't on a large Trade

not only in importing the Molasses and Raw Sugar, from which the Spirits and Loaf Sugar were made, but also in exporting the Rum and other Spirits Distilled and the Sugar refined to New York, Pensylvania, Maryland, Virginia, North and South Carolina, for Wheat, Bread, Flour, Indian Corn, Pork, Beef, Pitch, Tar, Turpentine, Tallow, Furs, Skins and other things too many to be particularly named, as well as to Newfoundland and Nova [322.] Scotia for Fish, Train Oil and Bills of Exchange; whereas for divers years lately, the Distilling is not only spread and carried on in various parts of this Province, as Plymouth, Salem, Charlestown, Newbury, Nantucket, Watertown and Medford, but also exceeding largely in Newport & Providence in Rhode Island Government, and there are also many Still houses and Sugar houses in New York and Philadelphia and also considerable of the Distilling Business carried on at New London, Norwich, Newhaven, and Middletown in Connecticut, insomuch, that now this Town has but a small Share of Supplying, even the home consumption, for beside what the Distillers in the other Towns of the Province, Sell, very large quantities are bro't into this Province, by Land and Sea from Newport and Providence in Rhode Island Colony; The Trade of the Town of Boston is also exceedingly lessened in English Goods, for whereas, for a great number of Years they Supply'd this Province, Connecticut, New Hampshire and Rhode Island wholly, they now send but little to Connecticut, and hardly any thing at all to Rhode Island, and as to this Province, divers Persons now Inhabitants of Boston are Supply'd with English Goods very largely, from the very men in other Towns, who but a few years since had their whole Supply of English and almost all other Goods out of this Town, and of these very men.

There has been also lately introduced another practice, that, of the common Victuallers or Butchers living in other Towns and there generally killing the Meat for this Town, both great and small, whereas formerly the greatest part of the small Meat was killed by Town Dwellers and the large Beasts almost without a single exception, The Hides & Skins were then almost wholly Tanned, Curryed & Manufactured in Town, the Shoemakers in the Country were mainly Supply'd with Leather from hence, and great numbers of Shoemakers in Boston, had large Employ in making Shoes for People living in the other Towns of the Province; But the very reverse is the Case now, hardly a single Bullock is killed by an Inhabitant of Boston, nor is One quarter if an Eighth part of the Hides belonging to the [323.] Meat consumed by the People in Boston, Tanned & Manufactured here. Our Shoemakers what few We have, are Obliged to go into the Countrey for their Leather, and a great number of Shoemakers who live in the Country, have large Employ from Boston.

These things the Removal of Ship-building, sinking of the Distillery & Sugar Works here, the killing the Meat and Manufacturing the Hides and Skins out of Town, have thinned Our Numbers above a Thousand Rateable Men, carried from us many of Our most Industrious, frugal and provident Inhabitants, who have left us a number of thoughtless, Idle and Sottish Persons, who have

very soon of course, come to be the charge and burthen of the Town, Insomuch, that in a few Years, the Poor's Tax has risen from about a Thousand or Fifteen hundred Pounds Old tenor, to above Ten Thousand Pounds a year, and the sum given, in quarterly Meetings, Monthly Contributions, half Yearly Collections on the Anniversary Fasts and Thanksgivings and private Charitys are tho't to Amount to as much, and many think more; And the Expence of this Town of Boston for the Poor is tho't by the most Industrious, to be more than the whole Province beside, on that Occasion and some say than all the Governments of New England put together, exclusive of Boston: so that the most Observing and best Acquainted are very positive, that the Poor's Tax in Boston, is double (if not more) to what it is, in any Town of it's bigness, upon the face of the whole Earth.

This Excessive Charge has begun and is likely very much to increase, another great and ruinous Mischief, the driving Our Wealthy and most able Inhabitants out of this Town, to Dwell and be Rated in the Countrey. It is a known and settled point that about a quarter of a fifth part of what they pay in this Town of Boston, is the extent of what they will ordinarily be Rated, in almost any Town, they can Move into, in the Countrey; It must be a strong temptation, to be able to Sleep quietly a few Miles out of Boston, and Escape paying Five Hundred or a Thousand Pounds a Year, This is the Case, numbers are gone already, more are going, others are preparing to go, and unless there be some remedy the Town must be depopulated and the Poor perish by themselves.

[324.] These are Our Circumstances yet we cannot but hope, that by the interposition of Your Honour's Equity and Goodness this Once flourishing but now sinking Town, may be saved from ther dismal prospects and their hopes (as they humbly conceive) are founded on Justice, their proportion in the Province Assessments, is much the same as in their most prosperous state, when the Province was little more than half so Numerous in the other parts of it, and scarce a quarter so Able in point of Wealth, It is impossible the same proportions should be equitable, when One part is undeniably Sunk very much below what they were, and the other part more than doubled in their Ability, this must be Acknowledged to be the Case in comparing the present and past state of the Countrey; Boston has most certainly Sunk, and is by a Thousand Rateable Inhabitants, less, the other parts of the Province are most certainly risen, become more flourishing, their Lands better Subdued and made more profitable their numbers of Rateable Inhabitants increased by many Thousands, their Trade, especially that which is Foreign, more that ten times greater than it was a very few Years ago; We need only name the Countys of Essex, Middlesex and Worcester to shew the Increase of Inhabitants and Husbandry, and the Towns of Plimouth, Salem, Marblehead, Newbury, Gloucester, Nantucket York and Falmouth in Casco Bay, to evidence the great and flourishing Foreign Trade carried on, which formerly wholly cordered in Boston, but is, now gone from it, to these several growing & flourishing Towns, if a Fifth or a Sixth part of the Tax, was

Boston's Proportion formerly a Tenth or a Twelfth part, is much more than their proportion now.

Wherefore, your humble Petitioners pray your Honours to Settle the proportion of the Town of Boston in the Publick Assessments. according to the present state of the Town and Countrey, or in some other Way, according to your known Wisdom and Justice give them relief — And your Petitioners (as in Duty bound) shall ever pray &c.

After the same was Read, It was Unanimously Voted That it be Accepted, also Voted That the Town Clerk [325.] Prepare a fair Copy thereof, and Sign the same in the name of the Town, and that the Gentlemen the Representatives be and hereby are desired to present it to the General Court at their next Session, and Use their utmost Endeavours that the Prayer thereof be granted.

Voted. That this Meeting be Adjourn'd to Monday the 28<sup>th</sup>. instant at three o'Clock in the Afternoon.

Fairfield's Tomb, and the whole three not exceeding Ten feet from the Body of the Church, and that when they proceed to build them, that they notify the Proprietors of the Tombs, and the Persons who have their Relations buried thereabouts to be present, which the Committee apprehend will be a proper Expedient to maintain Peace and give Satisfaction, provided also that if in breaking up the Ground, they find the Bones of any Deceased Persons, they put them into a distinct Box, and bury them in some other place, provided also that the Land included between the Church and the three proposed Pillars, shall not be Inclosed — which Report being Read, after some Debate thereon, Voted, That said Report be and hereby is Accepted, and that the Petitioners have Liberty to Erect said three Pillars, in the manner and on such Terms as are mentioned in said Report.

The Petition of sundry Inhabitants praying that part of Anne Street may be Widened, it being now so narrow that it is dangerous to pass and repass the same, and in order to do it, there will be a necessity to take down part of a House belonging to the Heirs of Mr. Jeremiah Allen Dec'd, and part of a House belonging to One Mr. Maddocks — Read, and

Voted, that the Selectmen prefer a Petition to the General Court praying the Town may be Enabled to Widen said Street, by taking down so much of said Houses, as may be necessary therefor, allowing such Consideration for the same, as the General Court shall judge reasonable.

The Petition of Thomas Hubbard Esq<sup>r</sup>. Setting forth that in the year 1737, when the Town had Concluded on Building a Workhouse, and in order to have the same Erected in some Commodious part of it, it was judged by a Committee of the Town necessary to remove the Granary from the place it then stood in, to where it now is, and the Petitioner (being One of that Committee) finding that the Granary had till then been without a Cellar, thought it very inconvenient that so good a Building should remain so any longer, and thereupon proposed the things being done, after it was removed, upon this the Towns Committee proposed to the Petitioner that he should have a term of time in it, if he would undertake it himself, to which he suddenly [339.] Agreed for Sixteen years, immediately went about & Accomplished it, at the Cost of more than Two Hundred Pounds, the then Currency, altho' he was afterwards Enjoined by the Committee to Lath and Plaister under the lower Floor of the Granary, which he never Expected to do, when he agreed for that term of time, but so it is that notwithstanding he hath had the Sixteen years in it, the 12<sup>th</sup>. of December last, yet during that whole time he has had Opportunity to hire it out but 2½ years at the rate of Thirty Pounds Old tenor p. Annum, and about 2½ years more at the Rate of Sixty Pounds, the other part of the 16 years, it hath lain mostly Unimproved, unless it be by his sometimes housing Pitch and Tarr in it, at a very considerable Expence — The Petitioner therefore humbly Conceives that as it was his real Intention to Serve the Town in what he did, so the Town will not suffer him to be a Looser thereby, which he Inevitably must be, unless he hath a longer time allowed him therein or be otherwise relieved by the Town, which he humbly submitted to their Consideration; said Petition being Read — Voted that for the Considerations mentioned, and reasons given in said Petition, the said Thomas Hubbards term in said Cellar be and hereby is extended Ten Years longer to commence the 12<sup>th</sup>. of December last, and that the Selectmen Execute a Lease thereof to him accordingly.

The Committee appointed the 12<sup>th</sup>. of March last, to Audit the Accompts of M<sup>r</sup>. Treasurer Jeffries now reported, that they had attended that Service, and find the same right cast & well Vouched, in which Acco<sup>t</sup>. he Charges himself with sundry Fines, Rents and other Incomes of the Town, as also with the Tax of £4,000 committed to the Collectors, all which Amounts (including the Ballance of Old Acco<sup>t</sup>. to the Sum of £8575,, 3,, 9 $\frac{3}{4}$  — And the said Treasurer discharges himself by sundry Abatements made the Collectors, by Drafts made by the Selectmen Am<sup>o</sup>. to £2525,, 4,, 1 $\frac{1}{4}$  and by Drafts made by the Overseers of the Poor, which contain the Charges of the Almshouse and Workhouse, Am<sup>o</sup>. to £1316,, 11,, 11 $\frac{3}{4}$  which said Com<sup>tee</sup>. inspected in a very particular manner by Examining every particular Voucher, produced by the Overseers for the Amount of that Sum, and every other branch of Publick Charge, all Am<sup>o</sup>. to £5142,, 5,, 11 $\frac{1}{2}$  [340.] By which it appears that when all the Taxes Rents & Incomes of the Town are in, the Ballance will be £3432,, 17,, 10 $\frac{1}{4}$  which the said Treasurer is further to Account for, as appears by the Tryal Ballance of said Accompt, given in by said Committee and on file, which Report and Accompt being Read,

Voted the same be Accepted.

Voted, that M<sup>r</sup>. William Cooper, M<sup>r</sup>. Thomas Tyler, Thomas Greene John Wheelwright and Thomas Oxnard Esq<sup>r</sup>. be and they are appointed a Committee to Audit the Accompts of M<sup>r</sup>. Treasurer Jeffries, and also the Accompts of the Overseers of the Poor, and the said Committee are hereby directed and Impowered to Inspect every Particular Acco<sup>t</sup>. of the Moneys expended for the Use of the Almshouse, and every other Branch of the Publick Charges, and they are desired to make Report thereon, as soon as they have done the same.

The Committee appointed the twelfth day of March last, on the Petition of Isaac Dupee, Solomon Kneeland & others, relating to their Claim of Lands mentioned in said Petition, now Reported that on the twenty sixth of December last, pursuant to the power given them, they Executed Bonds of Submission on behalf of the Town unto Isaac Dupee, Solomon Kneeland and Thomas Walley on behalf of themselves and others that Claim the Lands & Premises in Dispute, who likewise Executed Bonds to said Committee, whereby was refer'd their Right Claim and Demand, as also the Right Claim and Demand of the Town, to said Lands unto the Determination of Samuel Danforth Esq<sup>r</sup>. of Cambridge James Russell and Samuel Bradstreet of Charlestown Merchants; who accordingly met and fully heard the Committee & the other Claimers upon the Premises, and on the twenty eighth day of February last, gave in their final Award and Determination thereupon — which Bond and Award the said Committee Read and presented to the Town for their Confirmation, and said Committee further Reported that they apprehended it to be best that said Bonds and Award be Enter'd upon the Towns Record, to prevent any Disputes relating to said Lands for the future — thereupon It was Voted that said Report be Accepted, and that the Lands given and Assigned to the Petitioners and other Claimers by said Refer-

rees be and hereby [341.] Are Confirmed unto them and thier Heirs forever as is mentioned in their Award. Also Voted that the said Bonds of Submission and said Award be Enter'd at length on the Towns Records to prevent any Disputes relating to said Land for the future.

[347.] The Committee appointed the 11<sup>th</sup>. of March last, to Enquire what Fines have been paid into the Town Treasury for several years past, when they were paid, by whom, and the respective Sums so paid, and to Consider what Method the Inhabitants had best take to recover such Fines as they judge may be now due to the Town, now Report, That the Fines paid into the Town Treasury from the 13<sup>th</sup>. of June 1739, to this day, by several of His Majesty's Justices of the Peace and Sheriffs Am<sup>o</sup>. to £539 ., 12 ., 8. Old tenor, & £43 ., 8 ., 6. lawful money, as by a particular Acco<sup>t</sup>. thereof, and of the Names of the Persons who paid the same, which said Committee exhibited to the Town appears, and as those Justices who have paid, did never render legal Accompts, and as many others have never yet paid any Sum into the Treasury, and from whom said Committee apprehended there is considerable due, they further report as their Opinion that

the best Method, the Town can take to Obtain what is due to them, is to direct the Treasurer of the Town to Prosecute such Justices as are living, and the Heirs Excors or Admors—of such as are Deced—in the manner the Law directs at the next Inferiour Court to be held for this County, in case they don't by the tenth of June next, render a legal Acco<sup>t</sup>. to him and pay the Sums that shall thereupon appear to be respectively due from them to the Town, which Report being Read and Debated, Voted, that the same be Accepted with the following Amendment, Viz<sup>t</sup>. That the Treasurer be directed to wait, on such Justices of the Town as are living, and the Heirs Excors — or Admors — of such as are Deced, — and require of them an Acco<sup>t</sup>. of the Fines they have not paid, and those that do not render to him a legal Acco<sup>t</sup>. and pay the Fines thereon due, to the Town by said tenth of June, said Treasurer is hereby directed to prosecute in the Law for the same, at the Inferiour Court of Common pleas to be held at Boston in July next.

The Petition of Gilbert and Lewis Deblois was read, Setting forth, that the Petitioners about two or three years since Purchased a Peice of Land in Boston bounded on One side on Hanover Street, and on another on Queen Street, that they have since Erected a Brick Dwelling house on said Land, & finding the Streets there to be very narrow, they took out of their own Land about Three feet in Wedth, and about Sixty nine feet in length and added it to Hanover Street, so that two Carts or Carriages may now pass with safety, that Queen Street where the Petitioners House stands is very narrow, and two Carts can't pass at the same time without great danger, that there are several Shops or Buildings [350.] Belonging to the Town that are the other side of said Street, and now very much out of repair, and as they must soon be repaired, the Petitioners would be very glad if the Town would then take off such a part thereof as may be judged necessary for Widening said Street, which the Petitioners apprehended would save some Expençe in the repairs, and make the Shops so much more convenient, as they will fetch equal Rent to what they now do, they being now very deep and

dark, but if the Town should not incline to repair said Buildings, and make this Addition to the Street, which the Petitioners can't but think they will, considering what they have already done for Widening Hanover Street, the Petitioners proposed that the Town would grant to them a Lease for Twenty or Thirty years of the Lands and Shops belonging to the Town there, upon such terms as shall be agreed upon by a Committee chose by the Town, and the Petitioners they having the liberty in repairing to make such Alterations in said Shops as they and said Committee shall judge to be best both for Widening said Street and the Convenience of the Shops, and as this must be a manifest advantage to the Town, the Petitioners prayed the same might be now taken into Consideration and Acted upon accordingly — and after some Debate thereon It was Voted that the Selectmen be and they hereby are appointed a Committee to Consider of this Petition, and Report as soon as may be, what they apprehend it best for the Town to do thereon.

That Article in the Warrant, Viz<sup>t</sup>. "To know the minds of the Inhabitants with regard to a Bill now depending in the General Court laying an Excise on the private Consumption of Wines and Spirits distill'd," was taken into Consideration, and the Abstract of said Bill, and Governour Shirleys Speech relating to it, being read a long Debate thereon was had, and it was unanimously Voted

1<sup>st</sup>. That it is the sense of the Town that, that part of the Excise Bill contain'd in the Abstract now read, is contrary to those Principles upon which Our happy Constitution is founded, as well as destructive of those Priviledges which it Warrants and Defends, that it is Vexatious and Oppressive and tends to Weaken the just Authority of an Oath, and to prejudice the Morals of the Community.

Services; which mark of their respect his Excellency was pleas'd to Accept; And as His Excellency among other Instances of his Paternal Care of the People of this Province, hath lately given a most signal proof of his tender regard for their Civil rights by interfering in favour of them, on Occasion of the Bill of Excise pass'd by both Houses of the Great and General Court in June last, and of his Vigilance and unwearied Attention for securing the Province against the repeated Ravages of the Eastern Indians, and Incroachments of the French in his late Successful Expedition for that purpose into the Eastern parts, The said Gentlemen and Merchants now offer to make the Town a present of the said Picture to be hung up in Faneuil Hall. — It was thereupon unanimously.

The Selectmen appointed a Committee the 15<sup>th</sup>. of May last on the Petition of Gilbert and Lewis Deblois, now reported that they had Viewed the Street mentioned in said Petition and the Towns Shops there and conferr'd several times with the Petitioner, and judge that it will not be for the Interest of the Town to grant a Lease for any term of said Shops, but think it best, that the Street there should be Widened by taking off about three feet of the Shops, but as the Expence of doing it, will Amount to about Twenty Pounds more than repairing them as they now stand, over and above the loss of part of the Towns Shop in M<sup>r</sup>. Tuckermans Possession, in the length of it, they leave it to the Town to Act therein, as they shall apprehend best, which Report being read, M<sup>r</sup>. Gilbert Deblois One of the Petitioners desired to be heard

thereupon, and he being accordingly heard, a debate ensued thereupon, & afterwards said Gilbert Deblois made the following Proposal to the Town Viz'. That if the the Town will take off about three feet from said Shops in order to Widen said Street, as it will for the future better Accommodate his House, the Petitioners will in Consideration thereof give to the Town Thirteen Pounds Six Shillings & Eight pence lawful money. To His Excellency William Shirley Esq<sup>r</sup>. Captain General Governour and Commander in Chief in and over His Majesty's Province of the Massachusetts Bay in New England.

The humble Address of the Freeholders & other Inhabitants of the Town of Boston.

May it please your Excellency,

His Majesty's most Loyal & Dutiful Subjects the Inhabitants of the Town of Boston in General Town Meeting Assembled, beg leave to Express their sincere Joy at your Excellency's safe and happy Arrival from the Eastward.

We Congratulate your Excellency upon the Success with which the Execution of that Plan which you have laid to Attach the Indians in those parts to His Majesty's Interest, and to prevent the Encroachments of the French has been hitherto attended.

Your Excellency's late seasonable Interposition in favour of the Natural Rights of Englishmen, so greatly, tho' We trust not wilfully, affected by the late Excise Bill, affords us the most convincing proofs of the Rectitude of your Excellency's Sentiments and the Affection of your Patriot heart for that Constitution, which sweetens, improves and Exalts every other blessing of Life.

We cannot feel the decay of Our Commerce, and the many Burdens which this Town labour under, without the most Melancholly Impressions, but these admit of some Alleviations from your

Excellency's wise and vigorous Endeavours to preserve Our dearer Liberties neither is it in Our power to relish that Relief with regard to the former which must necessarily grow out of [356.] Those Methods which tend to destroy the Latter.

We would hope that the Honourable Court may upon mature Consideration find reason to alter their Judgment respecting this Affair, which if they should renew and insist upon, We humbly apprehend will be attended with the most Mischievous Consequences, unless your Excellency should finally refuse your Sanction to it.

The Noble Pattern your Excellency has in this Affair held up to Our view, highten'd by your Situation in Government and Augmented by your Connection with the Prerogative, convinces us of the tender regard you have for the Liberties of this People, and will not we hope be ever forgotten.

And as this particular Instance of your Excellency's Goodness added to Our past Experience of your known Abilities has increas'd Our Confidence in your Administration, it shall be Our study to Afford your Excellency all those Demonstrations of Duty and Affection, which Truth and Justice require, and your Excellency's wise & good Conduct will, we doubt not, Secure and Perpetuate.

Boston Sept. 17<sup>th</sup>. 1754.

And thereupon.

To the hon<sup>ble</sup>. Thomas Hubbard Esq<sup>r</sup>. M<sup>r</sup>. John Tyng James Bowdoin Esq<sup>r</sup>. and M<sup>r</sup>. William Cooper  
Gentlemen

Although our Choice of you to represent this Town of Boston in the next General Assembly of this Province be such a Proof of our Confidence in your Abilities prudence & integrity, that even any Instructions, whatsoever, may by some Persons, be tho't needless or impertinent, yet as it is our undoubted right ever to give our Representatives particular Instructions for their Conduct, in the General Assembly, and very expedient too touching such Points especially as most nearly concern the natural rights & liberties of the People in general, as well as the Interest of this Town in particular, so far at least as is Consistent with the General Good of the community, and inasmuch as the famous Exeise Act made here, the last Winter (which was apprehended by us to be so greivous & burdensome that we with one Consent and as soon as possible made our Application to our most gracious Sovereign for his royal disallowance thereof) hath not yet been presented to his Majesty (as we know of) and therefore, doth and will abide in full force untill his disallowance thereof be duly Signified, or it be repealed here; We your Constituants do therefore in justice to ourselves, as well as in Testimony of our settled & hearty Aversions to all Attacks and Incroachments upon our natural Rights think it very expedient and even necessary at this time to instruct you Gent<sup>n</sup>., And we do accordingly hereby instruct and give it you in special Charge

1. That you do exert yourselves to the utmost of your Abilities in all suitable ways to procure a repeal of that Act, so far as it concerns the Excise upon the private Cousumption of Wine Spirits & C: in private Families as soon as possible; and likewise to prevent any such like Act, or any Act whatsoever being made in destruction or derogation of our natural rights & liberties, if any such Attempt should be again made either in the House of Representatives (where the other originated and was so warmly carried on to effect) or by either of the branches of the Legislature.

[369½.] 2. That you likewise earnestly endeavour to procure an Act to be made for the exclusion of all Farmers of Excises and their Deputies and all secret or open contractors therefor from a seat in either House of the General Assembly for the future.

3. And for as much as the Inhabitants of this Town for a long time past have been and still are laboring and groaning under a burden of Taxes, far beyound our equal proportion with the other Inhabitants of this Province, and which are now become insupportable even to every rank of Men amongst us, we do therefore recommend to you and expect, that you also do your utmost to procure a just Valuation of all the rateable Estates within this Province to be made this Year, that we may no longer be taxed so

farr beyond our just proportion towards defreying the Charges of the Government, as now are and have been for these many Years past.

4. As to all other matters which may come under Consideration in the Approaching Assembly we leave them at present to your prudence & discretion, not doubting of your Fidelity to us your Constituents and to the publick, but would have you ever keep in your mind, that in Case any new attempt should be made against our liberties & Charter-Privileges in this ensuing Year it is expected by us, that you not only seasonably and vigorously oppose it, but also give us your Constituents timely notice thereof that you may receive our further Special Instructions thereupon, if it shou'd be thought expedient. And the same being read & considered of. Voted unanimously that the same be Accepted, and the Gentlemen the Representatives are desired to govern themselves according to said Instructions and the Town Clerk is hereby directed to give a fair Copy thereof to each of them.

The Committee appointed the 14<sup>th</sup>. of May AD 1751 Viz<sup>t</sup>. M<sup>r</sup>. Jonathan Williams M<sup>r</sup>. Thomas Greene and M<sup>r</sup>. Nath<sup>l</sup> Thwing to prosecute any persons that have made Incroachments on the Towns Lands near to or upon Fort hill, now Reported that by virtue of the power to them given they had used their utmost endeavours to accommodate & settle with Middlecott Cooke Esq<sup>r</sup>. and others relating to the Encroachments made on the Towns Land near Fort hill in the Occupation of [370.] M<sup>r</sup>. Alexander Hunt, but not being able to accommodate the same they brought forward an Action against said Hunt, which after divers continuances was fully heard at the Superiour Court in August last when the Town recovered judgment for the possession of a strip of Land next adjoining to M<sup>r</sup>. Joseph Hubbard's Land, as will fully appear by said Judgment, which Strip of Land the Gentlemen the Selectmen of the Town of Boston have received possession in behalf of said Town. which being read Voted that the same be accepted and that the Thanks of the Town be and hereby is given to said Committee for the great Pains they have taken in this Affair.

Voted that the Thanks of the Town be & hereby is given to the Hon<sup>ble</sup>. Thomas Hubbard Esq<sup>r</sup>. the Moderator of this Meeting for transacting the Business thereof.

[370½.] At a Meeting of the Freeholders and other Inhabitants of the Town of Boston legally qualify'd & warn'd in publick Town Meeting Assembled at Faneuil Hall on Wednesday the 4 day of February AD 1756.

The Warrant for calling the Meeting Read.

John Phillips Esq<sup>r</sup>. chose Moderator by a handy Vote.

The Town proceeded to take into Consideration the Article in the Warrant Viz<sup>t</sup>. whether the Town will immediately proceed to raise by a Lottery or Lotteries the sum of Three Thousand Pounds lawful money for paving Boston Neck pursuant to the Power granted by an Act of the Great and General Court lately pass'd for that purpose, and the Act of the Province relating to it being read. And some Debate thereon, the following Question was put Viz<sup>t</sup>. whether it be the Minds of the Town that the Managers who are by said Act appointed to carry on said Lottery or Lotteries shall proceed as soon as they conveniently can, and in such a Method as they shall think proper to raise the aforesaid Sum of Three thousand Pounds lawful money in order to pave the Neck according to the Directions of said Act, the same to be paved of such a Wedth and in such manner as the Selectmen for the time being shall judge best, and also do such other Repairs as shall be found necessary. And it was voted in the Affirmative by a great Majority.

The Town then proceeded to consider, the other Article in the Warrant Viz<sup>t</sup>. whether the Town will now make Application to the General Court that a General Account and valuation of all Polls & rateable Estates throughout the Province may be taken this Year, and after some debate thereon, It was voted unanimously that the Town will make Application accordingly, and then voted that a Committee be chose to prepare a Draft of a Petition to the General Court for that purpose, Voted that the said Committee consist of 5 Persons, Voted that Benjamin Prat Esq<sup>r</sup>. Voted that this Meeting be adjourn'd to Wednesday the 11<sup>th</sup> instant at 3 o'Clock in the Afternoon.

Wednesday February 11<sup>th</sup>. 1756 3 o'Clock P.M. the Inhabitants mett according to their Adjournment.

The Committee appointed the 4<sup>th</sup>. ins<sup>t</sup>. to prepare a Draft of a Petition to the General Court now reported that they had prepared a Draft which was read as in the Words following. Viz<sup>t</sup>.

To his Excellency William Shirley Esquire Captain General and Governour in Chief, the honourable the Council and House of Representatives in General Court Assembled February 11: 1756.

The Inhabitants of Boston in Town Meeting legally convened.  
Humbly Shew

That their Difficulties are become so great and pressing that they cannot forbear repeating their Grievances, which they humbly beg leave to lay before your Excellency and Honours, that as their Ability is exceedingly and apparently lessned their Share of the Province Charge (which is now nearly the same as in their most flourishing State) may be made proportionable to their present diminish'd & decayed Circumstances.

That their Condition and Ability are thus weakned will abundantly appear by comparing their past, & present State & Bussiness heretofore there were near four thousand Polls who paid Taxes, now there are but few more than two thousand.

But a short time since the Town often had 30 or 40 Vessells at a time on the Stocks, mostly large, now there are but six Vessells of all sorts agreed for.

Not many Years since they had the whole Business [371½.] of Distilling Molosses and refining Sugar with which they supply'd the Inhabitants of this Province, Newfoundland Nova Scotia, New Hampshire, Rhode Island, & Providence Plantations, Connecticutt, New York, the Jerseys, Maryland Virginnia, North and South Carolina, in return for which they had Wheat, Flower, Peas, Pork, Beef, Fish, Train Oyl, Pitch, Tarr, Turpentine, Furs, Hides, Skins Tallow & many other valuable Commodities, & frequently especially from Nova Scotia, & Newfoundland, Bills of Exchange on our Mother Country, this necessarily employed a great number of Vessells & Sailors to Import the Molasses, & Raw Sugar, & export their produce when Manufactured, as also what we barter'd them away for abroad as well as brought among us and found Bussiness for a great Number Tradesmen as Coopers, Bakers, Hatters, Tanners, Tallow Chandlers Truckmen, and Porters, all which having full employ chearfully paid their part of the Taxes, whereas now we are wholly deprived of supplying the most of the neighbouring Governments, there being many Distilling or Sugar Houses in Rhode Island, New York, and Pensylvania to the Southward, as well as in Nova Scotia to the Northward, besides the Great number in other Towns of this Province Viz<sup>l</sup>. Plymouth, Salem, Newbury, Haverhill, Marblehead, Charlestown Watertown Medford & Nantuckett, insomuch that the Town of Boston now does not half supply the home Consumption.

Within a little more than twenty Years the Inhabitants of this Town imported and almost entirely supply'd not only this Province but all the other Inhabitants of the several Governments in New England with the Manufactures and Goods of our Mother Country now they have almost wholly lost the supply of Rhode Island Government, and in a great measure that of Connecticutt and New Hampshire, and not so only but several of our considerable Shops & whole Sale Traders are now supply'd by those very Merchants in other Towns of this Province whom they or their Fathers or Massters largely or almost wholly supply'd with the same, Sort of Goods, but a few Years since.

And within a very Short time almost [372.] All our victuallers or Butchers living in the Town who were thirty or forty in Number, and kill'd not long since all the large Meat & much the Greatest

part of the small, are now reduced to three or four who all put together, don't kill so much as one who lives out of the Town, this has almost broke up our Tanners Curriers & Shoemakers and altered the Case of the Town from supplying the Country, with Leather, and a great part of their Shoes to be supply'd very largely with both, from the Country.

These Things have of Course and almost unavoidably brought a great number of our Inhabitants of the lower sort to great Poverty and Indigence, insomuch that the Charge of our Poor has increased from about one Thousand or Fifteen hundred Pounds a Year old tenor to ten or twelve Thousand, besides the Collections for them in the severall Churches & other Charitable Meetings and Societys which are thought by the most knowing to amount to as much more, which great excesive Charges has also brought on another growing & heavy loss to the Town, that of the removal of several of our Men, wealthy inhabitants, it being a known & settled Point that about a fifth part of what they pay for Taxes in Boston will discharge them in any other Town, it must be a strong temptation to remove a few miles out of this Town if a man can save five hundred or a thousand Pounds a Year by it.

And while this Town has in these visible ways been sinking and infeabled many parts of the said Province have flourished & increased apparently, the Countys of Essex Middlesex & Worcester, have done so in their Husbandry, and the Towns of Plymouth, Sherburne or Nantucket, Salem, Marblehead, Newbury, York, and Falmouth in Casco Bay, have also in their Trade & Commerce both foreign & domestick; these things which are easy to be verified and put beyond all Dispute, point out, and as we humbly apprehend justice seems to require, that a new Valuation of Estates be made throughout the Province, and altho; this Town have not given in a List or Valuation of their Estates heretofore, yet it appears now so necessary that they have unanimously agreed & voted to do it, and they do with the same unanimity humbly request your Excellency & Honours (as soon as may be) to order a Valuation to be made of all the rateable Estates in the Province, upon which we hope the Inhabitants of Boston will with all Chearfullness exert themselves to pay what shall be found their just Share & Proportion [372½.] And thereupon it was unanimously Voted that the same be accepted and that the Town Clerk prepare a fair Copy of said Petition and that the Selectmen in the Name of the Town Sign the same and prefer it to the General Court accordingly.

Voted that the Thanks of the Town be & they hereby are given to the Committee for the Pains they have took in preparing the Draft aforesaid.

Be & they hereby are appointed a Committee to make the most Exact & particular Enquiry what Bussiness was done and carry'd on by Persons of their respective Occupations in this Town in the Year 1746, or thereabouts and also in what proportion the same has been since declining to this time, and they are desired to reduce the same to writing, and return such Accompts thereof to the Selectmen, they to deliver the same to the Gentlemen the Representatives of the Town who are to make such use thereof as the shall judge necessary in the Application the Town have made to the General Court for taking a Valuation this Year of all Polls & rateable Estates throughout the Province.

The Petition of a great Number of the Inhabitants setting forth, that there is a vacant Peice of Land belonging to the Town in Water street that for many Years was occupied only for a Tann heap, as it was judged to be of some small advantage to the Poor, Tan being brought there from the several Tan Yards that were then near, but as those Places are now mostly improved for other uses, scarce any Tan has been put on said vacant Peice of Land for a long time, but the same now is and for a considerable time past has been a Publick Nuisance, many Persons having put quantities of Filth, and some emptied their Vaults there, that it is not only very inconvenient to the Inhabitants that dwell near, but extremly

offensive especially in the Summer Season, when they have no comfort or satisfaction in their own Houses, occasioned by the disagreeable Stench arising from this Nuisance. The Petitioners therefore pray the Town will now take the same into Consideration, and Order that said vacant Ground be added to Water-Street as no other use can be made of it and that the same may be paved at the Expence of some of the Inhabitants that live near it; the Petitioners being Inform'd there are some who are willing for their own Convenience & Comfort to be at that expence rather than it should lay as it does, and by this means the Petitioners apprehend said Nuisance will be removed, and thereby an Expence saved the Town who are liable to be Presented therefor. — said Petition was Read, and the same being Consider'd of & Debated upon, It was Voted that the Prayer of the Petition be granted, & that the said Lands heretofore improved as a Tanheap be & hereby is added to said Water Street, & for the future to be accounted part thereof, provided that it shall appear to the Selectmen that the same is the Property of the Town, and also that Cap<sup>t</sup>. James Dalton one of the Petitioners give a legal Quit Claim to the Town of all his Interest therein (if any he has) and in any [387.] Other Lands he has added to said Street; as also that some of the Petitioners or any other Persons give Security to said Selectmen that the Land hereby added to said Street shall be soon Paved at their expence and to the satisfaction of the Selectmen.

The Petition of John Wardel setting forth that he for nine Years last past has been employed by the Town as Hayweigher and as such has annually paid into the Town Treasury twenty Pounds Lawful money as also the Rent and Repairs of the Hay-Market during which time the Petitioner has acted with Fidelity as far as he knows; but of late an Advertisement was put into the public Prints setting forth in purport that the Petitioner had not done justice in weighing of Hay &c<sup>a</sup>. as in said Print is more fully mentioned; upon reading of which the Petitioner immediately applied

himself to the Selectmen of the Town and told them that the Scales were right as he apprehended, excepting that the weights by reason of their being wore were something too light; whereupon the Gentlemen Selectmen Ordered him to carry them to the Sealer to have them Rectified which Orders were immediately obeyed and the wantage in the whole number of weights was a pound and three ounces for which the Petitioner was wont to make [387½.] Allowance but the Gentlemen Selectmen directly dismiss'd the Petitioner as Hay-weigher and took the keys from him . . . Now in as much as the Petitioner has for many Years past got his Livelihood by Acting as Hay-weigher and has ever Acted with Integrity in said Office, begs that he may not be turned out without having the least Notice, and only by means of an Advertisement zealously Worded for the good of the Town or rather of the Advertizer, that the Petitioner did not know that it was his Buisness to get the Weights Sealed but that the Gentlemen the Selectmen would direct and inspect into that Affair as occasion might Offer; but if the Petitioner had been guilty of any inadvertancy (which he is ignorant of) he hopes to be more Attentive for the future and in all Respects comply with the directions and injunctions of the Town or Selectmen touching the said Hay-maker, wherefore he prays the Town to take the Premises into their wise Consideration and restore him to the Office of Hay-weigher again, and if upon Tryal he does not the reasonable expectations of the Town he will cheerfully submit to their determination, was Read, as also the Petition of sundry Inhabitants to prevent any Person's Engrossing of Hay bro't to Market for Sale; and the Town took said Petitions into Consideration, and after some Debate thereon, Voted that the Selectmen be and they hereby are directed & impowred to appoint such Person as they shall think proper to weigh Hay at said Engine, & on such Terms as they shall judge best & from time to time give all necessary directions and orders concerning it, and take such Security from the Hay weigher as shall by them be thought reasonable. Also Voted that no Person that shall be appointed by the Selectmen to weigh Hay at said Engine, shall purchase or engross any Hay brought to Market for Sale either by Land or Water but for his own use, and when it shall appear to the satisfaction of the Selectmen that he has so done they are desired immediately to dismiss him.

Voted that this Meeting be and hereby is Adjourned to Friday the 15: of April next at nine o'Clock in the forenoon.

The Town met according to their Adjournment & upon a motion made & Seconded Voted that this Meeting be further Adjourned to Wednesday the 20<sup>th</sup>. Instant at 3 o'Clock in the Afternoon.

[388.] Wednesday April 20: 1757 The Town met according to their Adjournment.

Benjamin Prat Esq<sup>r</sup>. and the other Gentlemen appointed a Committee the 14: March last to apply to the General Court &c presented to the Town a Copy of the Petition they preferr'd to said Court & is as follows viz<sup>t</sup>.

To his Honour Spencer Phips Esq<sup>r</sup>. Lieu<sup>t</sup>. Governour and Commander in Chief of said Province the Hon<sup>ble</sup>. Council and House

of Representatives in General Court Assembled March 30<sup>th</sup>. 1757.

The Petition of the Inhabitants of the Town of Boston. Humbly shews.

That the Power of the Assessors to ease Persons by abateing their Taxes seems by a paragraph of the Province Act of the fourth of George the second, Chapter the first to be restrained to only such cases as where such Persons are Rated more than their Proportion with others.

That besides a great Number of Poor in Boston who are either wholly or in part maintained by the Town, & so are exempt from being Taxed, there are many who are Rateable according to Law either for their Polls or Tenements that they occupy or both, who are yet in such poor Circumstances that considering how little Buisness there is to be done in Boston they can scarcely procure from day to day daily Bread for themselves and Families, at the same time so heavy are the Taxes in Boston that each of such Persons proportion thereof for the Tenement wherein he lives will amount to a sufficiency to pay not only all Taxes but Rent too for a Tenement of equal goodness in most of the other Towns in this Province. These peculiar Circumstances have induced the Assessors of the Town of Boston to ease many of such persons by abateing their Taxes, thò really they were not assessed at more than their legal proportion, and their Abatements for the Year 1755 amounted to £1460, and such Abatements for the Year 1756 already amount to £1950 more: that these Abatements in these two Years amount to much more than was at all expected, and some Contingent Town. Charges have also unexpectedly happened so that the Fund appropriated in the Town Treasury for making good Abatement's is outrun, and the Town on [388½.] It's own Account much in Debt even exclusive of these Deficiencies this situation is peculiarly alarming to your Petitioners as by means thereof there is not any fund in the Town Treasury for paying the Town Charges, all the Servants of the Town are unpaid, & many of them greatly suffering for want of their Dues;

The Poor suported either wholly or in part by the Town in the Alms-house and out of it will amount to the Number of about one thousand cannot longer be supported, as in Effect both the Money and Credit of this Town by the means abovementioned gone; And may it please your Honours your Petitioners apprehend that without your Honours Aid they can never be relieved, for on the one hand it seems to be doubtful whether the Town has legal Power to Tax the Inhabitants to make good the present Deficiencies arising upon Abatements if not Warranted by Law, especially the amount being so large, and the great Mischiefs of making so large a Tax as these Deficiencies amount to that is open to disputes and altercations your Honours will readily see. & on the other hand such a Tax would be an excessive Burthen on a Town that by loss of its Trade, loss of its People and increase of its Poor and load of Taxes is brought to the brink of utter Ruin; For, may it please your Honours, 'tis notorious that the Province exclusive of this Town is greatly increased in Numbers Trade and

Rateable Estates within 20 Years last past; while in the mean time the Trade and Rateable Polls of this declining Town within that Period are reduced near one half, and yet its proportion of the Tax is nearly the same as in its flourishing State; and as this Malencholly situation of this Town has been often Remonstrated to your Honours, your Petitioners confide in your goodness that they shall obtain Relief in that respect as soon as a Valuation can be taken through the Province, and be intitled to a considerable Allowance at the least for the Year 1756 pursuant to the Resolve of your Honours on the ninth day of April last Viz<sup>t</sup>.

“That the proportion of the several Towns and Districts towards the Tax for the Year 1756 or any other Year, before a new Valuation shall be completed shall be finally adjusted & settled according to the Proportion which the several Towns and Districts within this Province shall be set in the next valuation.”

[389.] And as the Valuation is not yet taken, & that Allowance cannot be adjusted, and your Petitioners distresses call for immediate Relief Your Petitioners humbly pray your Honours would be pleased to authorize the Town by Vote in Town Meeting to raise by a Tax on the Polls & Estates of the Town the Sum of £3410 or more if necessary to supply the deficiency arising from the Abatements aforesaid, and that your Honours in order to supply the present Necessities and give your Petitioners present Relief would further please to indulge the Town with the benefit and use of the like Sum of £3410 out of the Province Tax apportioned to this Town for the Year 1756 and dispence with their paying the same to the Province Treasury untill the Valuation shall be taken & this Town's Proportion be thereupon adjusted, or otherwise relieve your Petitioners as your Wisdom & Goodness shall direct. which was Read.

Upon a Motion made and seconded, It was Voted that the Committee appointed the 14 of March last to apply to the General Court to enable the Town to raise by Tax on the Inhabitants such a Sum of Money as should be needful to make up the Deficiencies of the Years 1755 & 1756 occasioned by an Abatement of the Taxes of Persons unable to pay them; and also for any other Relief the said Committee shall think necessary, be & they hereby are further impowred to consider of any other Methods that they may judge proper in order to obtain Relief as to the proportion of the Publick Taxes, and to prefer any Petition or Petitions to the General Court from time to time as the said Committee may think effectual for those Purposes.

Also Voted that the Article in the Warrant relating to this Affair be & hereby is referr'd to the Meeting in May next for further Consideration.

The Committee appointed the 14<sup>th</sup> of March last to Consider of sundry proposals offered in Writing relating to the Dirt in the Streets, & prepare a By-Law for the better Regulation & Sale thereof, Report that they have considered of said Proposals & are of Opinion that they are beneficial to the Town, and that the Method therein propos'd will both contribute to keep the Streets cleaner than heretofore they have been, and also produce some

Monies by the [389½.] Dirt, but as the Town have already Voted to Revise all their By-Laws, and the Committee who have them under Consideration will (as they are Informed) be ready to Report thereon at the next May Meeting, and as the subject matter of said proposals may be easier comprized among other By-Laws, then by a single By-Law, for these Reasons they have not drawn a By-Law but report that the Town do Instruct said Committee for revising their By-Laws to Insert among them one for the purpose abovementioned. which being Read, Voted that said Report be accepted, and that the Committee appointed for revising the By-Laws of the Town be and hereby are Instructed & directed to prepare & Report a By-Law relating to the Dirt in the Streets and for the Regulation and Sale thereof.

Voted that all Matters & Things that remain unfinished be & they hereby are referred & continued over to the Meeting of the Town in May next to be then taken into Consideration & Acted upon.

Voted that the Thanks of the Town be & hereby is given to John Phillips Esq<sup>r</sup>. the Moderator for transacting the Buisness of this Meeting.

Then the Meeting was dismiss'd.

At a Meeting of the Freeholders & other Inhabitants of the Town of Boston legally qualified & warned in Public Town Meeting Assembled at Faneuil-Hall on Tuesday the tenth day of May A D 1757.

Prayer was made by the Rev'd. Mr. Thomas Prince.

The Precept & Warrant for calling the Meeting. Read.

Sundry Laws. Read.

Samuel Grant Esq<sup>r</sup> one of the Selectmen proposed in their Name to the Inhabitants Assembled to proceed to the [390.] Choice of one or more Persons to represent them in the Great and General Court or Assembly to be held at Boston upon Wednesday the 25<sup>th</sup> day of May current, and in order therto, to consider & ascertain the number of Gentlemen to be elected, accordingly It was Voted to proceed to the choice of four Representatives, and then it was declared by the Selectmen that no Votes should be received after twelve o'Clock, but the Poll then closed.

The Votes being Collected, the Number of voters were found to be 528, and upon Sorting them it appeared that the three following Gentlemen only were chose viz<sup>t</sup>.

	Votes
The hon <sup>ble</sup> Thomas Hubbard Esq <sup>r</sup> .	444
Thomas Flucker Esq <sup>r</sup> .	500
Benjamin Prat Esq <sup>r</sup> .	447

Which being declared the Inhabitants were directed to bring in their Votes for one Representative, which they accordingly did, & it appeared there were 491 Voters, but upon sorting them there was no Choice. The Selectmen then directed that this Meeting be Adjourned to three o'Clock in the Afternoon for the choice of another Representatives, at the same time informing the Inhabitants that the Poll would be closed precisely at four o'Clock and

no Votes received after, and said Meeting is adjourned accordingly.

Three o'Clock in the Afternoon, the Inhabitants Assembled and brought in their Votes for one Representative and upon Collecting them it appeared there were 754 Voters, & that

M <sup>r</sup> John Tyng	
was chose by a Majority of Votes having	401
and Samuel Welles Esq <sup>r</sup> had	349

The Election of Representatives being over the same was declared by the Selectmen.

The Inhabitants proceeded to bring in their Votes for a Moderator, and upon Sorting them it appeared that Benj<sup>a</sup> Prat Esq<sup>r</sup> was chose, & he having taken the Oath required by an Act of this Province relating to his receiving and paying Bills of Credit of the Governments of Connecticut New Hampshire & Rhode Island; took his Seat.

[390½.] The Petitions Read.

The Petition of sundry Freeholders and Inhabitants setting forth that about thirty Years ago the Town erected several wooden Shops on the North side of Faneuil Hall Market and have ever since Rented them out, during which time large Sums of Money have been expended to keep them in Repair, that they are now so much gone to decay as to be scarce tenantable, and as your Memorialists are informed, there must be immediate & thorough Repairs made of them, which if done will amount to a very considerable Sum of Money & its probable in a few Years after, will want other Repairs so that the Rent thereof will not be equal to the Repairs; which all must allow to be a very bad Estate as upon the whole it will bring the Town in Debt as long as said Shops are there

Your Memorialists would also inform that the open Dock behind said Shops is become very nauseous & offensive to all the Inhabitants that live near, & to the Merchants and others who have Warehouses on the Dock, and obliged to do their Business in them; and as the keeping of said Dock open, is not of the least benefit (that your Memorialists know of) to any Inhabitants, but if fill'd up will remove the disagreeable Stench arising from it; as also by this means there will be a large commodious Square to accomodate the Market People who have for some Years so filled up the Streets and every other Place round the Publick Market that it is become an intolerable Grievance to the Inhabitants, & has been & still is Matter of just Complaint; it may also be of great benefit in case of Fire to receive any Goods the Inhabitants may have occasion to remove there and in many other Respects will be a great service to the Town.

Your Memorialists therefore upon the whole pray that the Town will take the Premisses into Consideration and Order that said Shops may be removed or demolish'd & said Dock fill'd up so far & in such a manner as shall be judged best, without any prejudice to the Proprietors that have a right of Drains &c. to said Dock; [391.] Was Read, and after some debate thereon it was mov'd that a Committee be chose to consider of said Petition & Report

thereon, and the Question being put it was Voted in the Negative, and then a Question was put whether said Petition so far as it relates to demolishing the Shops or Buildings be dismissed, and it passed in the Affirmative; And then it was mov'd & seconded that a Question be put, whether a Committee shall be chose to enquire into the Rights of the Town to the Dock, and the Right of the Abutters thereon, and whether it is expedient to fill up any part of the Dock, and how much thereof, and the Question being accordingly put it passed in the Affirmative, & thereupon It was Voted that Thomas Greene Esq<sup>r</sup>. M<sup>r</sup>. Benj<sup>a</sup>. Kent, Cap<sup>t</sup>. Isaac White & M<sup>r</sup>. William Fairfield and Jeremiah Greene Esq<sup>r</sup>. be a Committee for those Purposes, they are desired to Report thereon as soon as may be.

The Petition of John Hill Esq<sup>r</sup>. setting forth that he hired of the Town the East side of the Neck by a Lease commencing the first day of March AD 1749 and for the Term of Thirty one Years upon certain Conditions on his part as set forth in said Lease, all of which he has hitherto faithfully complied with.

And upon the Petitioners first undertaking this Affair he computed the Cost and then apprehended it would amount to about two hundred Pounds L. M. in which he had the concurring Opinion of his Friends and many other Gentlemen of undoubted good judgment in those Affairs. — however after he had engaged in Building the Dam he was soon convinced that the expence would arise to a much higher Sum, but was then obliged to go on or lose what he had by that time laid out upon it.

The Petitioner look'd upon himself bound in honour to the faithful performance of this weighty Contract however expensive it might prove & therefore spared no necessary Cost in Building the Dam so as that it might not only serve to his own Advantage during the Lease, but also to the Town forever after, this he did with the more cheerfulness as he would not possibly allow himself to [391½.] Think they would suffer him to be greatly hurt much less Ruin'd by an undertaking in which he was sincerely consious of his having at heart not barly his own private benefit but theirs too. The Dam is now compleat and the Petitioner presumes is as well finished as is possible, it has stood the Shocks of two Winters, the last perhaps as Stormy as any one can remember and yet remain undisturbed — the Expence is very near £650 lawful money which being so much more than the Original Calculation has drawn away that Stock which the Petitioner should have reserved for his Capital Buisness & completed his Misfortunes.

The Petitioner has further to say, that in Building this Dam he has taken in double the Quantities of Land he was by Contract obliged to which any one will easily perceive will hereafter be of Advantage to the Town in proportion to his extraordinary Expence & Trouble.

And upon the whole it is the prayer of the Petitioner that the Town would candidly consider his unfortunate Circumstances and as he is now out of all Capacity of fullfilling the remaining Conditions of his Bargain, that they would release him & allow him such a Sum for his Expence as shall be thought adequate to it.

The Petitioner has it not in his power now to serve the Town as he has for a course of Years heretofore chearfully done yet for their best prosperity he ever prays, was Read & thereupon It was Voted that Thomas Flucker Esq<sup>r</sup>. M<sup>r</sup>. Royal Tyler and Doctor William Clark be and they hereby are appointed a Committee to consider of said Petition and Report what is best for the Town to do thereon.

The Article in the Warrant viz<sup>t</sup>. whether the Assessors may be allowed to sit to make Abatement of Taxes at any other time than they were impowred to do by the Vote passed in March last, was taken into Consideration & thereupon It was Voted that the Assessors do not sit to make Abatement of Taxes at any other time than that mentioned in the Vote passed in March last.

Andrew Oliver Esq<sup>r</sup>. and others which the Town formerly Voted to Defend at their Cost, now reported that they had attended that Service and have met the Assessors and plaintiffs aforesaid. and on the whole have agreed with Andrew Oliver Esq<sup>r</sup>. & others that at the sitting of the next Superiour Court the Order of the General Court made respecting the Action between the said Andrew Oliver and others & William Fairfield & others shall be complied with & the said Andrew Oliver & others are then to become Nonsuit and are to be refunded the Sum taken from them by distress being Two Pounds five shillings for which this Action was brought and each Party bear their own Costs; And we further Report that we are of Opinion that to prevent any dispute of the like kind with the said Oliver and others that the Sum of Twenty one Pounds seventeen shillings and eleven pence being the amount of what they were Rated for on Account of William Thompson Esq<sup>r</sup>. for the Years 1746, 1747, 1748, 1749, 1750, 1751, 1752, be refunded to said Oliver and others; which was Read & Accepted and Voted that the said Andrew Oliver Esq<sup>r</sup>. be refunded & paid the several Sums mentioned in said Report accordingly.
